Inspector Robert E. Wick has been one of my chief assistants during the pressure months and the heavy workload of the past year. He has certainly performed in a manner to bring credit upon himself and the utmost benefit to this Division and to the Bureau. In my estimation, his attitude, his ability and the tremendous results he has achieved in promoting the Bureau and its interests deserve for him consideration for an "outstanding" rating.

It is to be noted that during this rating period, from April 1, 1959, through March 31, 1960, he has used 13 days and 7 hours sick leave. These absences occurred on 3 days in June and 3 days in October, 1 hour in December, 1 day in January and a 7-day period in February, and were all caused by severe colds coupled with fever or colds and bronchial congestion. With the long hours he works and with the number of times he handles telephonic inquiries concerning press matters at home in the early morning hours, it is remarkable that he has not been susceptible to colds, flu and other seasonal ailments to a great extent. On many occasions, as I know personally, he has come to work when he should have been home in a sick bed.

During the rating period, Wick received 2 letters of censure in connection with handling outgoing correspondence, on 7-31-59 and on 2-19-60. In view of the tremendous volume of work he handles and the fact that he handles additional work on many occasions when one or more Agents from our Front Office are away on "specials", his performance record is indeed "outstanding." Based on the record and taking the above items into full consideration, I consider him to be highly worthy of an "outstanding" performance rating in the report which is attached.

RECOMMENDATION:

That Inspector Robert E. Wick, Crime Records Division, Front Office, be favorably considered for an "outstanding" performance rating.

Attached are two copies of an Outstanding annual performance rating covering services of Inspector Robert E. Wick for the period of 4-1-59 to 3-31-60. This rating appears justified. Inspector Wick has been censured on two occasions during the rating period, on 7-31-59 for errors in correspondence and 2-19-60 for delay in handling and routing two items of special correspondence to the Director's Office. His weight is within the desirable limits and his overtime has been above the Division average for the 12-month period.

Under the Incentive Awards Plan Inspector Wick will be entitled to an incentive award. In the past an award in the amount of \$500 has been approved for Assistant Directors and above. For Bureau officials below the level of Assistant Directors it has been customary to approve awards of \$400.

RECOMMENDATIONS:

1) That the Outstanding rating be approved. If approved, it is suggested that you sign the rating as Reviewing Official and the Director sign as the Approving Official. Original and copy should be signed.

2) If approved, that rating be returned to me for retention in this Division for transmittal to the Department for final approval by the Efficiency Awards Committee, which will be done when all Outstanding ratings on investigative personnel have been received and processed.

3) Should the foregoing be approved, it is recommended that Inspector Wick be granted an incentive award in the amount of \$400 upon receipt of final approval of the Outstanding rating by the Efficiency Awards Committee.

DETAILS:

The annual FBIRA field day and picnic last Saturday, June 4, drew by far the largest attendance we have ever had and was a most successful event from every standpoint. An estimated 5,000 were in attendance and participation in each activity was constant throughout the day. All events went smoothly even though showers interrupted temporarily during the Marine Corps band concert.

The demonstration portion of the program was a pre-eminent success. The greetings of Mr. Tolson and Mr. Hoover were extended by me in opening this portion of the day's program and was followed by the Bureau's firearms and judo demonstrations. Using a new format in their presentation the Bureau firearms instructors under Special Agent in Charge H. L. Sloan provided an exciting and convincing display of marksmanship while the judo demonstration by Special Agent George Zeiss and his assistants evoked both high points of humorous entertainment as well as a skillfully woven script into which the practical aspects of bodily self-defense were shown. Both of these Bureau demonstrations were time and again solidly applauded by the audience. Our representatives acquitted themselves most creditably. At the conclusion of this memorandum appropriate letters of appreciation are being recommended.

Mr. Wally Cox, famed trick shoot artist, performed with amazing skill, using an accompanying line of carnival-type chatter interspersed with highly laudatory remarks about the FBI. Cox gave a brilliant performance. A letter to Cox is also being recommended.

The U.S. Marine Corps demonstration, consisting of a combat rifle team supported by aircraft and ground fire, was, as usual, superb in its dramatic presentation and precision of timing. General Snedeker and top-ranking

Memorandum to Mr. Mohr from J. J. McGuire
Re: FBIRA FIELD DAY AND PICNIC

officials and their families of the Marine Corps at Quantico were in attendance at various times of the day and there was no doubt as to the top priority the Marine Corps had given to its support of this FBI activity. The exhibits of planes, tanks, and guns were crowded all day. Letters to appropriate officers of the Marine Corps are also being recommended.

The committee responsible for this highly successful affair expended considerable personal effort and a great deal of time and thought in planning and executing the numerous details toward making this event, which was termed by Major Slenning, Marine Corps coordinator, as the smoothest-running event he has ever witnessed. The committee recognized difficulties that had occurred at prior picnics, such as inadequate parking facilities, food handlers, and restroom facilities, and these problems were completely eliminated. This year improvements were made in the running of the various games and contests and in the handling of the awards.

As coordinator, acting under my direction, Special Agent Edwin M. Holroyd did an outstanding, efficient, and enthusiastic job. Subchairmen supporting Holroyd whose accomplishments merit special commendation were Special Agent in Charge H. L. Sloan, who handled the Bureau's firearms demonstration, the food concessions, equipment and supplies, public address system, and, most importantly, the liaison with the Marine Corps with their resultant good will and cooperation. It is pointed out that the Marine Corps band, a dance combo unit of the band, combat equipment displays, the services of a medical unit with corpsmen and a doctor in attendance as well as ^{an} ambulance servicing the first-aid room, as well as the major Marine Corps combat demonstration, were all arranged through the Marine Corps by Mr. Sloan.

Especially noteworthy was the work of E. Paul Arey of the Exhibits Section who handled the design and planning of the various fliers, posters, and programs and award certificates given out to the contest winners, as well as various area charts and road signs. All were handled by Arey.

Special Agent Richard Hunsinger was responsible for the obtaining of general prizes, balloons, toys, athletic equipment and awards, and did an outstanding job in gathering these materials together.

Memorandum to Mr. Mohr from J. J. McGuire
Re: FBIRA FIELD DAY AND PICNIC

The games themselves were conducted by Special Agents A. R. Jones, W. M. Mooney, and B. F. Rose. Each of the events they handled ran most smoothly and while they had numerous assistants working under them, I believe that the activities of these three principals in this phase of the day's event warrant special commendation.

Special Agent O. G. Medler, handling bus transportation from Washington to Quantico and return, was likewise in charge of the parking of the hundreds of automobiles and was instrumental in seeing that there was an effective transportation of supplies both prior to the picnic and at its conclusion.

Special Agent [redacted] likewise has given a most creditable accounting of himself in handling all printing disbursements and accounting problems in connection with the financial aspects of the picnic. b6

There were numerous other employees who were most helpful and separately I am recommending that notes regarding their enthusiastic cooperation and assistance be placed in their personnel file.

Through Special Agent Wick arrangements were made with Radio Station WMAL to carry an announcement regarding the picnic in view of the inclement weather early Saturday morning and it is recommended that a letter of appreciation over the Director's signature be directed to Mr. Howie Williams, program director, Radio Station WMAL, 4461 Connecticut Avenue, N.W., Washington, D.C., thanking him for the announcements made over WMAL by Jackson Weever and Frank Harden as the result of arrangements made by Mr. Del Malkie and Mr. Len Deibert of the station staff.

For the first time, according to the Interior Department authorities, an exception was made to a rigid policy of not loaning out mobile restroom facilities. The exception was made this year in favor of the FBI and it was most helpful to have the facilities made available to us by the Interior Department in handling such a large crowd. Accordingly, a letter of appreciation over the Director's signature is recommended for Mr. T. Sutton Jett, Associate Superintendent, National Capital Parks, Interior Department. In the note to Mr. Jett we should also make reference to the splendid cooperation given to the FBI by Mr. Ted Smith of National Capital Parks who furnished us with the equipment necessary to conduct athletic events such as rope, line markers, etc.

Memorandum to Mr. Mohr from J. J. McGuire
Re: FBIRA FIELD DAY AND PICNIC

SAC Sloan in his attached memorandum 6-6-60 to Mr. Malone recommends letters to 17 Marine Corps officers. Mr. Malone felt these letters could be cut down in number and, accordingly, SAC Sloan and I recommend letters for the Director's signature to four of the top Marine Corps officers as follows:

(1) Lieutenant General Edward W. Snedeker, Commandant, Marine Corps Schools, Quantico, Virginia, thanking him for the personal interest he took in preparation for the field day and in this letter reference should be made to the specific assistance given by Colonel Clarence A. Barninger, who was the director of all supporting Marine Corps School units; to Major Bradford N. Slenning, who was coordinator for this event; to Colonel William T. Bray, whose staff provided supplies needed to construct food stands, bleacher seats, and numerous miscellaneous items and equipment; to Lieutenant Colonel Earl R. McLaughlin, Provost Marshal, for the well-planned and executed traffic control and handling of parking; to Chief Warrant Officer Howard W. Van Doren, Band Officer, for the excellent concert despite rain showers and for providing a combo unit for dancing; to Captain Russell I. Hudson, whose unit delivered picnic tables to the range and a detail of men to assist in erecting food stands and miscellaneous other support; to Major Paul N. Taylor, Maintenance Officer, who provided materials as well as electricians, plumbers, carpenters, and equipment needed for the picnic; to Lieutenant Colonel W. A. Kerr, Special Services Officer, who provided athletic equipment and a detail of Marines to line the various courts and fields used in the athletic events; to Captain L. P. Kirkpatrick (M.C., U.S.N.), Post Surgeon, who provided medical support, corpsmen, and an ambulance to man the first-aid station.

(2) A letter should also be directed to Colonel Ralph H. Currin, Commanding Officer of the Schools Demonstration Troops, Marine Corps Schools, Quantico, Virginia, for his assistance and cooperation as problem director for the demonstration of Marine Corps tactical concepts and as narrator during the first part of the Marine Corps demonstration. In the letter to Colonel Currin reference should be made to the cooperation of Major Richard B. Talbott, S-3, Schools Demonstration Troops, Marine Corps Schools, who was the operation officer handling the Schools Demonstration Troops of the Marine Corps and to Captain D. N. McKeon, SDT, Marine Corps Schools, Quantico, Virginia, for his excellent support and narration in front of the audience during the Marine Corps demonstration.

Memorandum to Mr. Mohr from J. J. McGuire
Re: FBIRA FIELD DAY AND PICNIC

(3) A letter should also be directed to Colonel Paul H. Ashley, Commanding Officer, Marine Corps Air Station, Quantico, Virginia, who provided personnel and aircraft for the Marine demonstration as well as static displays at the range. In the letter to Colonel Ashley specific mention should be made of the assistance rendered by Major George E. Mouzakis, Aircraft Engineering Squadron 12, Marine Corps Air Station, who was narrator during the demonstration from the control tower; and also reference should be made in the letter to Colonel Ashley expressing appreciation for the cooperation of Major Joseph L. Freitas, Acting Commanding Officer HMX-1, who assisted the National Geographic photographer by helicopter in making aerial pictures during the field day; and to assistance rendered by Captain Thomas E. Raines and the part he played in the spectacular demonstration of helicopter equipment.

(4) A letter for the Director's signature should also be directed to Major Bradford N. Slenning, Assistant, G-3 Section, Marine Corps Schools, Quantico, for the personal effort and interest he displayed as coordinator in making this year's event the most successful demonstration of the Marine Corps in recent years. Major Slenning has been most helpful to the Academy staff and is an ardent booster of the Bureau and it was his personal interest which brought about the optimum of coordinated effort in a demonstration requiring split-second timing and precision.

RECOMMENDATIONS:

(1) It is recommended that the Crime Records Division prepare for the Director's signature letters of appreciation to Lieutenant General Edward W. Snedeker, Colonel Ralph H. Currin, Colonel Paul H. Ashley, and to Major Bradford N. Slenning of the U.S. Marine Corps as indicated above.

In addition, to prepare a letter to Frank E. McAvoy, President, McAvoy Target Equipment Company, 23 Grand Street, Garfield, New Jersey, expressing appreciation for his having personally brought portable dueling devices to our range for use in the FBI's firearms demonstration at no expense to the Bureau. Mr. McAvoy has supplied Bureau target equipment and technical information of much value to the development of the Bureau's firearms program over the past 25 years.

Memorandum to Mr. Mohr from J. J. McGuire
Re: FBIRA FIELD DAY AND PICNIC

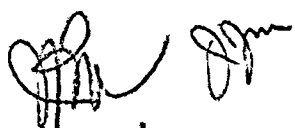

Also, to prepare a letter to Mr. W. E. Cox, field representative, Remington Arms Company, Post Office Box 3097, Newport, Delaware, for his outstanding showmanship and marksmanship in presenting an aerial demonstration of rifles and shotguns which made his performance one of the highlights of the day.

A letter to Mr. Howie Williams, program director, Radio Station WMAL, 4461 Connecticut Avenue, Northwest, Washington, D. C., thanking him for the announcements made over Radio Station WMAL as a result of the arrangements made by Del Malkie and Len Deibert of the station staff.

A letter of appreciation to Mr. T. Sutton Jett, Associate Superintendent, National Capital Parks, Interior Department, in which reference should be made to the splendid cooperation given by Mr. Ted Smith, who furnished numerous items of equipment necessary to conduct athletic events.

(2) It is recommended the Administrative Division prepare letters for the Director's signature commending Special Agent in Charge H. L. Sloan and the FBI Academy staff for their hard work in preparing the ranges for the field day and for the outstanding firearms and judo demonstrations, as well as letters to Special Agent Edwin Holroyd, who coordinated the activities of various subchairmen under the direction of the President of the FBIRA, and to Special Agents Richard Hunsinger, A. R. Jones, W. M. Mooney, B. F. Rose, George Medler, T. C. Haaser, Beverly Ponder, and Robert E. Wick, who made the arrangements with Radio Station WMAL for the broadcast regarding the picnic, as well as to Mr. E. Paul Arey of the Exhibits Section as mentioned in the details of this memorandum.

The President of the FBIRA will prepare a brief memorandum relative to the participation of approximately 50 clerical employees and Special Agents who gave extensive assistance during the picnic in operating the various games, such memorandum to be placed in the personnel files of these employees regarding their good work.

ADDENDUM ADMINISTRATIVE DIVISION, NEM:afh, 6-8-60

Assistant Director John J. McGuire, who is President of the FBIRA, had over-all responsibility for the many details involved in arranging for the Field Day and Picnic at Quantico. It is felt that the success of this outing was due in no small degree to his capable leadership. Mr. McGuire was censured and placed on probation on 5-31-60 as a result of inquiry made into a personnel matter in his division by Mr. Malone; however, it is not felt that this pertains in any way to the performance of Mr. McGuire as President of the FBIRA. Therefore, it is recommended he be commended for his over-all handling of the FBIRA Field Day and Picnic. (an appropriate letter is attached)

SUBJECT: [REDACTED] AKA. -

FUGITIVE;

[REDACTED] - VICTIM

KIDNAPING; UFAP - KIDNAPING;
ITSMV; MISPRISION OF FELONY

11/10
SAC, Birmingham, has submitted recommendations for incentive awards and commendation for personnel of this office in connection with this case.

BACKGROUND

R. B. ST. E. J. Wick

On 7/11/60, Dr. [REDACTED] Dubuque, Iowa, physician, responded to a call for medical assistance from a man identifying himself as [REDACTED]. Later the same evening Mrs. [REDACTED] received a phone call from [REDACTED] stating that Dr. [REDACTED] was calling in a consultant and would probably be detained all night. No further word was heard from Dr. [REDACTED] and his 1959 Rambler was not located. Investigation by Omaha Office identified Stevens as being [REDACTED]. Based on this identification, local authorities, Dubuque, obtained local kidnaping process for [REDACTED] on 7/16/60. On 7/20/60, Unlawful Flight to Avoid Prosecution complaint was filed before the U. S. Commissioner, Sioux City, Iowa, based on the outstanding state kidnaping process.

On 7/20/60, Birmingham Office received information that a man possibly being identical to [REDACTED] a "Top Ten Fugitive" had been attempting to negotiate the sale of a 1959 Rambler at a used car lot in Birmingham. Birmingham Office immediately dispatched Agents to the used car lot and it was determined the suspect had departed. Nine Agents under the direction of ASAC Raby immediately commenced a systematic search for the suspect in the 1959 Rambler. Several hours after the receipt of the first complaint, the suspect was found by Agents driving the car on a street in Birmingham.

Re: [REDACTED]

and he was immediately stopped and detained. It was determined on the scene that the suspect was not identical to [REDACTED] based on fingerprint comparisons. Due to the story given by the suspect, who identified himself as [REDACTED] he was taken to the Birmingham Office for additional questioning and it was subsequently determined that [REDACTED] was identical to [REDACTED] and the car in [REDACTED] possession was actually Dr. [REDACTED] automobile. The information furnished by [REDACTED] during interview on 7/20/60 led to the location of Dr. [REDACTED] body by Bureau Agents in Illinois on the morning of 7/21/60.

The prompt action taken by the personnel of the Birmingham Office upon receiving the initial complaint indicates the office was particularly alert in pursuing this matter diligently. At the time [REDACTED] was taken to the office for questioning his true identity had not been established and Birmingham was not yet aware of the kidnaping of Dr. [REDACTED] or that fugitive process had been issued that same day at Sioux City, Iowa. Through the aggressive action taken, the Birmingham Office determined that [REDACTED] was a badly wanted fugitive and solved the kidnaping and murder of Dr. [REDACTED]

I. FOR INCENTIVE AWARDS

ASAC Kenneth M. Raby

The SAC recommends a \$300 incentive award, based on Raby's over-all supervision, which led in the location of [REDACTED] in possession of the victim's automobile. Raby furnished on the spot supervision at the time [REDACTED] was taken into custody which resulted in the success of this phase of the operation. [REDACTED] advised, after his arrest, that had not the Agents come upon him so quickly and caught him by surprise, he might have engaged in a gun fight. Lying on the car seat at the time of the arrest was a .380 caliber pistol. Raby also participated in the interview of [REDACTED] which subsequently led to his admission of participation in the kidnaping and murder of Dr. [REDACTED] and which provided the information where Dr. [REDACTED] body could be found.

The Investigative Division recommends an award, the amount to be fixed by the Administrative Division.

Memorandum to Mr. Rosen

Re: [redacted]

[redacted]
Radio Communications Officer

The SAC recommends a \$200 award, based on the alert performance, immediate response to his responsibility and his prompt notification to Special Agent personnel which led to the apprehension of [redacted]. At 1 p.m., 7/20/60, [redacted] was operating a Bureau automobile on official business not connected with this case but overheard radio transmissions by Agents in other Bureau cars concerning their attempt to locate the 1959 Rambler. While proceeding on a street in Birmingham, [redacted] recognized a car proceeding in the opposite direction as being identical with the car sought by Bureau Agents. By radio, he immediately advised Agents on the search that he had seen the car, gave the location, and based on [redacted] notification, the subject was located and taken into custody six blocks away. b6

The Investigative Division recommends an award, the amount to be fixed by the Administrative Division.

II. FOR COMMENDATION

SA [redacted]

The SAC recommends an individual letter of commendation for [redacted] to whom this case was assigned in the Birmingham Office. [redacted] was one of the Agents involved in the search and subsequent location of [redacted] and he coordinated the efforts of all Agents in collecting evidence and running out leads. He interviewed [redacted] at the office detecting several flaws in his statement which contributed subsequently to the growing feeling of suspicion that [redacted] was not only furnishing his wrong name but may be involved in unknown criminal activity. This suspicion prompted more interrogation and inquiries resulting in the identification of [redacted] as the subject sought for the kidnaping of Dr. [redacted]. His performance in this case was superior. He displayed above average capability and perseverance. b6

Memorandum to Mr. Rosen

Re: [redacted]

The Investigative Division recommends that an individual letter of commendation be directed to [redacted] for his performance in this case.

In addition to the above-set-forth recommendations, the SAC recommends letters of commendation for the following Agent personnel who participated in the search and subsequent location of [redacted] on 7/20/60. The four Bureau cars utilized by these Agents converged on [redacted] while driving the 1959 Rambler in such a manner that he was hemmed in with no possibility of escape. There was no possibility for [redacted] to resist despite the fact he had a loaded .380 automatic on the seat of the car. The whole operation was conducted in a businesslike and successful manner.

[redacted]
[redacted]
Donald G. Sanders
Edmund S. Pert, Jr.
J. T. Arnett
Robert P. Womack
Harry T. Posey

The Investigative Division recommends that a general letter of commendation be forwarded to the Birmingham Office and that a copy of this letter be placed in each of their files. Individual letters are not being recommended for these Agents as they were performing duties that normally would be expected of them.

SAC, Omaha, has been requested to submit his recommendations regarding personnel of Omaha Office.

Addendum.

I recommend a letter of commendation for Wick. He coordinated the release, handled it in a most commendable manner

so that most possible news coverage for Bureau was obtained 7/28 Rosen

(OVER)

SAC, Birmingham, and Investigative Division recommended incentive awards for ASAC Kenneth M. Raby and Radio Communications Officer (RCO) [redacted]. Based on information submitted it certainly appears that outstanding investigative results were obtained in a minimum of time and that these two incentive awards are justified. It is also felt that SA [redacted] who was recommended for commendation has earned special recognition in the form of an incentive award. ASAC Raby from receipt of original information personally directed, supervised and participated in all phases of the investigation in an outstanding manner. RCO [redacted] while assigned to other duties, exhibited outstanding alertness and responsive activities when he observed the wanted car and directed agents to area where subject was apprehended. SA [redacted] assisted in the location and apprehension of subject and thereafter by penetrative interrogation determined that subject was the kidnapper and the location of victim's body. He also handled the case assignment and coordinated all investigative efforts. b6

BUREAU RECORDS:

SA Raby EOD 1-10-49 and is in grade GS 14, \$12,470. During last three years services satisfactory. Commended twice, commended once through his SAC and censured once. Rated Excellent on 1960 annual performance rating. Completely available. Weight within desirable limits and overtime above office average each of six months during the period January through June, 1960.

RCO [redacted] EOD 3-9-56 and is in grade GS 7, \$5854. Rated Satisfactory on 9-30-59 annual performance rating and entire services satisfactory with no commendations or censures. Weight within desirable limits.

SA [redacted] EOD 3-19-51 and is in grade GS 13, \$10,635. During last three years services satisfactory. Commended twice and commended twice through his SAC. No censures. Rated Excellent on 1960 annual performance rating. Completely available. Weight within desirable limits and overtime above office average three of six months during the period January through June, 1960.

Based on approved tables for determining the amount of an incentive award, the performances of the above are considered to be of moderate value and broad application to the work of the Bureau entitling them to awards of from \$150 to \$300.

SAC also recommended individual commendations for seven other agents who capably participated in this investigation. They participated as members of a team and individual commendations are not felt warranted.

ADDENDUM: (Continued)

Mr. Rosen recommended commendation for Seat of Government Supervisor Robert E. Wick, #1 Man to Assistant Director DeLoach, for his splendid coordination of the press releases which resulted in excellent news coverage for the Bureau.

RECOMMENDATIONS:

(1) That ASAC Raby, RCO [] and SA [] each be approved for incentive awards of \$150.00. (Amount recommended is in line with previous awards granted for similar performances.)

12/10/56 LUMBAR SPINE: The lumbar spine is scoliotic and lordotic the convexity of the scoliotic deformity is directed to the left. Lateral projections of the lumbosacral area are underpenetrated and should be repeated inasmuch as there is quite suggestive evidence of spondyloschisis with minimal if any anterior slippage of the 5th lumbar vertebra. Oblique projections are likewise indicated. There is slight anterior displacement of the 3rd lumbar vertebra on the 2nd one. The sacrum is characterized by a horizontal inclination and the perpendicular indicating the center of gravity is situated far anterior to the supero-anterior portion of S1. The sacro-iliac joints are negative bilaterally.

There are large partially calcified oval ossicles adjacent to the superior and outer portions of the acetabula. These latter are of no clinical significance.

1-14-53 Admitted this date with diagnosis of;
DU (Surgical observation) #7955

1-15-53 Diagnosis changed this date to:
Hernia, inguinal, indirect. #5602

OPERATIONS:

1-15-53 Hernioplasty, right inguinal. #302

SUMMARY:

This patient complained of intermittent pain and tenderness in the right groin for about one and one-half years, worse during the six weeks prior to admission. The pain was aggravated by exertion and by distension of the bladder. Physical examination was negative except for a right inguinal hernia of fairly small dimensions, and the routine laboratory studies were normal. Surgery was performed on 1-15-53 under spinal anesthesia, at which time an indirect sac was ligated high and removed; a patent processus vaginalis was opened and partially resected, and a protruding lipoma also removed. The floor of the inguinal canal was reconstructed by a Bassini repair. The postoperative course was uneventful, with good wound healing and no untoward symptoms. The patient felt well at the time of discharge from the hospital, to be followed further as an out-patient.

SUBJECT: ~~EVENING STAR NEWSPAPER ARTICLE~~

~~"NO NEED FOR SPYING - WE GIVE REDS WHAT THEY WANT"~~
~~8-11-60 EDITION~~

Robert E. Wick *CP/IA DX DeLoach*
 In connection with the above captioned article which appeared in the Evening Star today, Mr. Wick in Mr. DeLoach's Office advised the idea for this article was conceived by SA Thomas W. Leavitt in the Washington Field Office.

SA Leavitt advised that the Association of the United States Army (AUSA) would hold its annual meeting at the Sheraton-Park Hotel, Washington, D. C., 8/8-10/60 and from past experience would probably be covered by representatives of the Soviet and Soviet Bloc Country embassies. SA Leavitt thought that an interesting feature story concerning the activities of the Soviet bloc representatives gathering quantities of material at the AUSA meeting could be unobtrusively obtained by a press photographer and that arrangements could be made to identify the Soviet bloc personnel in attendance in a discreet fashion to a cooperative representative of the press. SA Leavitt's suggested plan was adopted and SAs John B. Cuskelly and Harold F. Charron, Jr., WFO, were assigned as spotters at the AUSA meeting and through prearranged signals identified Soviet and Soviet Bloc Country representatives so that they could be photographed by the press photographer.

James H. Gale
 Mr. Wick has recommended that SAs Leavitt, Cuskelly, and Charron be commended by letter on today's date. He also recommended that SAC, Gale, WFO, also be commended for his splendid over-all supervision of this delicate matter.

Dear Mr. Wick:

On September 6, 1960, the Crime Records Division submitted an outgoing letter for my approval erroneously expressing my regret at not having been able to see an individual who attended the American Bar Association Convention. As a matter of fact, I did meet the visitor in question and it would have been most embarrassing if the proposed letter submitted by your division had been approved and sent.

From an inquiry into this matter it appears that you were primarily at fault in that you failed to keep the Correspondence and Tours Section advised of current developments in the situation. Because of this failure on your part, that section was not informed of the fact that I had met the caller. You will certainly be expected to demonstrate better judgment in the future so that such potentially embarrassing mistakes may be avoided.

SUBJECT:

LOS ANGELES, CALIFORNIA

In a note of September 6, 1960, to Mr. Mohr, Mr. Tolson made reference to a letter to dated September 6, 1960, which expressed the Director's regrets upon not seeing while he was in Washington. Mr. Tolson points out that Mr. did see the Director on September 2, 1960, and he requested an explanation of the handling of this letter.

Robert E. Wick

As you recall, following a request from Mr. the Director had indicated he would briefly greet while he was in Washington attending the American Bar Association Convention from August 28 to September 1. Subsequently, a routing slip from the Director's Office dated September 1, 1960, was sent to the Correspondence and Tours Section indicating that came to the Reception Room at 11:40 AM and asked to see the Director and Inspector Suttler of the Crime Research Section. was advised of the Director's absence and also was advised of Inspector Suttler's absence, and appropriate regrets were expressed. Attached was a routing slip from your office instructing that an appropriate note of regrets be forwarded to . This was received in the Section at 3:24 PM, September 1, 1960. Promptly thereafter, the letter referred to by Mr. Tolson was prepared and left the Section in the early afternoon of Friday, September 2, 1960. We had no information or knowledge relating to subsequent plans for him to appear later that afternoon and meet the Director if Mr. Hoover was in, nor in any of the correspondence available to us was there any indication he was making additional efforts to see the Director. It is noted that in letter of August 11, 1960, he indicated he planned to attend the American Bar Association meeting from August 28 to September 1, thus implying that he would not be in Washington after that date.

RECOMMENDATION:

As Mr. Tolson suggests, certainly we should have made a check in this instance to make sure the individual had not called the Director's office. It is recommended that Wick be censured for not sending a copy of the Malone to Mohr memorandum dated 9-2-60 to Morrell's office and since I have the overall responsibility of handling such matters, it is recommended I also be censured.

The Registration Process

1. The draft law specifies that within five days of his 18th birthday, a man shall "present himself for and submit to registration."
2. The registration card is filled out by the draft board secretary — identification, occupation, marital status, etc. The registrant signs it. You can register with the nearest draft board, and your registration will be sent to the board having jurisdiction over your "permanent" address. (You do not "register as a C.O.;" this comes at the time of classification.)
3. After several months (varying with different draft boards and the need for draftees), the board will send a Classification Questionnaire, SSS Form 100, which is divided into 15 series of questions.
4. Series VII (formerly XV) provides the first opportunity to ask for consideration as a C.O. Section 6-j of the draft act provides that no person shall be subject to training and service in the Armed Forces who, by reason of religious training and belief, is conscientiously opposed to participation in war. If you are a C.O., sign Series VII, asking for Special Form 150. If at a later date you become a C.O., you can obtain the C.O. questionnaire from your draft board.
5. When you sign Series VII, your draft board will send Form 150 to you (perhaps not immediately).
6. After you have returned Form 100 (and 150 if you filed it), you will be classified and receive notice of your classification.
7. Your draft board should classify you in the lowest classification for which you are eligible. I-A is the highest.
 - I-A — Available for military duty.
 - I-A-O — C.O. available for noncombatant duty.
 - I-O — C.O. available for civilian alternative service.
 - I-S — High school student, or college student ordered to report for induction but deferred to complete his school year.
 - II-A — Deferred for essential civilian work (e.g., research).
 - II-C — Deferred for essential agricultural work.
 - II-S — Deferred for college or graduate study.
 - I-D — Member of organized reserves, National Guard, or student in officer procurement program.
 - III-A — Dependency deferment.
 - IV-D — Minister or ministerial student.
 - IV-F — Physically, mentally or morally unfit.
 - I-W — C.O. performing civilian work.
8. If you are denied the classification you seek, you have the right of personal appearance and of appeal. Consult a competent counselor immediately.

REFRESHMENTS SERVED

When the time comes for draft registration, what choices does a young man have?

Go to almost any high school and hear the answers. Army. Navy. Air Force. Marines. A military man explains the advantages of each. Sometimes each force sends its own representative to recruit the young men.

But what of the young man whose conscience does not allow him to participate in war, but who wishes to serve his country in a positive way. Is there an alternative for him?

That's what this film is about. Our government does provide an alternative, but too often the men who should know this don't hear about it until too late. The film explains what conscientious objection is. It outlines the provisions for alternative service for COs in the Selective Service Law and the ways in which individual young men are carrying out those provisions.

Every youth approaching 18 should see

this film. Every high school should show it along with the government-produced films of military life. Every church and community group should take the responsibility for seeing that young men have the chance to understand its content before they are called to register.

Alternatives is a 24-minute, 16 mm. sound film in full color. It includes both art and live action sequences showing conscientious objectors at work in various kinds of alternative service.

Actor Don Murray, himself a conscientious objector to war who did his alternative service in Italy, appears as narrator of Alternatives.

This film was produced cooperatively by more than 40 religious and peace organizations. Script is by Stanford Sobel; art work and production by Visualscope, New York. The following organizations are sponsoring distribution of the film:

American Friends Service Committee
Brethren Service Commission
United Christian Missionary Society
Fellowship of Reconciliation
Five Years Meeting of Friends - Board on Peace
Mennonite Central Committee
Methodist Television, Radio and Film Commission
National Service Board for Religious Objectors
United Church of Christ - Bureau of Audio Visuals

"Since I was not brave enough to become a conscientious objector, I became a soldier."

PRIVATE GROUP SHOWINGS CAN BE ARRANGED

Washington Young Friends

(Quakers)

2111 Florida Avenue, N.W., Washington 8, D. C.

DEcatur 2-5772

Dear Friend:

As a realistic student, you can't discuss your future anymore without discussing the draft.

We don't mean simply discussing what Congress, the President, or the local draft board is going to do.

This is just the beginning.

We mean discussing what you or your friends will do when you open the mail some day and find that notice headed "Greetings."

You may hope that these "Greetings" never come. Or you may be so incensed at Communist aggression and totalitarianism that you are half hoping to be prodded into "doing your bit" in defense of the American way of life.

In either case, you owe it to yourself as a student to think a little about the kind of training you will be given in the armed forces and where it is all leading.

By now almost everyone knows that you surrender many basic freedoms of thought and action when you take the induction oath. If you think it is undiplomatic to disagree with some of your teachers, just try arguing with your superior officers, once you have been inducted!

The main purpose of this authoritarian control is to overcome your human reluctance to kill. This is an unpleasant fact and efforts have been made to sugarcoat this pill. But the facts are that you will be shown how to plunge a bayonet into the flesh of another human being, how to break his throat with your bare hands. You will be trained to drop a bomb on a target that may turn out to be a home or a school, how to detonate an atomic or hydrogen bomb that may wipe out 400 square miles of human habitation with millions of lives.

If this sort of thing nauseates you, it's well to think about it in advance. Once you put on a uniform you will not be allowed to express any qualms of conscience about the things you do.

If this occupation could accomplish its announced purpose, saving our families from attack and the moral values of our civilization from destruction, you might think it justified. But on occasion even our military leaders have admitted that this is not the case.

"I have known war as few men now living know it. . . Its very destructiveness, of both friend and foe has rendered it useless as a means of settling international disputes."

General Douglas MacArthur

If MacArthur and others are right, as a draftee you will be forced to cooperate in acts which will end up by destroying the civilization for whose ideals you are supposed to be fighting. There is literally no defense against nuclear weapons and little chance of "preserving" very much in a full scale war.

You may find this hard to believe since you see so many respected educational, religious, and civic leaders supporting the military effort. But it is a sad fact that the "Cold War" has already produced a widespread fear, public hysteria, and pressure for conformity.

Is there no hope then? Is there no choice between a self-destroying, world destroying war and supine acceptance of Communist totalitarianism?

A growing number of young men like yourself have found another answer. The men, from all religious faiths, have made the decision to become conscientious objectors. They refuse to serve in the armed forces and they refuse to make or bear arms. Anyone who has a deep conviction that war is wrong, and who objects to killing other human beings can take this stand. Section 6j of the Selective Service Act as amended provides that no person should be required to perform military service who is conscientiously opposed to participation in war because of religious training or belief. Your pleas for peace are always questionable so long as you yourself are ready to participate in war.

We can love our country and sincerely work for its highest welfare without bearing arms. True love for our country does not mean a hatred of others. It is our conviction that only the application of principles of peace, love, justice, liberty, and international good will will make for the highest welfare of our country; and the highest welfare of our country must harmonize with the highest welfare of humanity everywhere. Our faith is in security through love, protection through good will; and for such we are willing to make the necessary sacrifice. We are opposed to war as a method of settling disputes because it is destructive of our highest values and sows the seeds of future wars. We feel that true patriots build upon the eternal principles of right which are the only foundation of stable government in our world.

Do you have the courage to stand up for what you believe is right? Can YOU conscientiously take the life of another human being?

We are enclosing a copy of a letter which one Friend has recently sent to his draft board. We would be happy to have you join us for lunch and fellowship at 12:30 on any Sunday afternoon at 2111 Florida Avenue, N. W., just above Dupont Circle.

Sincerely,

WASHINGTON YOUNG FRIENDS

William R. Martin, Chairman

**COPY OF ONE FRIEND'S LETTER
TO HIS DRAFT BOARD**

**Selective Service
Draft Board No. 60**

Dear Friends:

I am registering as a conscientious objector because I do not feel that it is right to take any human life. God has given life, and we don't have the right to decide that other human beings like ourselves no longer have a right to live.

I believe that our whole draft system which forces young men to kill others is immoral and wrong. The only reason that I have registered at all is that I have a very strong affection and concern for our country and its democracy, and I hope that through love and kindness I can appeal to the good in our government to abolish this law which forces young men to kill other human beings. I hope that in my alternative service, I can do those things which will truly help toward and help create an atmosphere of peace in the world. I believe that those things which do help toward peace can only be done in a spirit of love and kindness toward all people.

How can we expect to gain peace by war? We cannot reap figs from thorns or grapes from thistles. The ends do not justify the means. We cannot use evil means to achieve good ends. Force subdues, but love gains. We cannot get real peace through war.

In our effort to stop communism by force, we are tending more and more to use the means of the very enemy which we are fighting against. In our military forces, we have almost resorted to dictatorship in order to oppose Russia. The men in the army are being treated as numbers, and not as human beings with their own consciences. The individual conscience no longer has any say as to what he should do or what is right. The individual conscience of each man is forced to kill mass numbers of men (and now also innocent women and children), thinking of them not as human beings, but as targets which must be shot and killed. In the army a man must obey the order of the man above him, or he is liable to the severest of punishments. This is a country of Democracy. Why are we resorting to these dictatorial means to protect it?

I have chosen the conscientious objector position because I want to give the most of myself I can for the furthering of the peace and good will among mankind. I am refusing to go into the army, not because I don't want to be killed, but because I cannot kill another person.

I am choosing the Alternative Service position rather than the non-registrant position because I want to make my protest in as positive and loving a way as possible. I hope and pray that our government will realize and take into consideration that I, one U.S. citizen feel that this law is wrong and am willing to spend my whole life in trying to win friends by love instead of hate, killing, and the H-bomb.

On every coin in the U.S. is inscribed, "In God we trust." We are certainly not trusting in God when we put our complete trust and confidence in the military and Hydrogen bombs. Let us really trust in God, and in love, and renounce this law which forces young men to go out and kill other men. I do not believe that killing other human beings is loving them.

Jesus took the risk to be different from everyone else who was around him and trusted in love even when everyone else around him returned hate. Let us likewise show the world that we really want peace and are willing to trust in love. If we call ourselves a Christian nation, should it not also follow that we practice Christian ideals? No man can serve two masters, for either he will love the one and hate the other, or despise the one and hold to the other. We cannot serve both God and mammon.

To whom do we owe our highest loyalty? Do we owe it to our school, or to our local community, or to our country; and in the meantime ignore all the other people in the world. I feel that I owe my highest allegiance to the whole human race and to God. Therefore, I cannot kill any one of these human beings who have been created by God our Maker.

Your friend,

David Hartsough

The Registration Process

1. The draft law specifies that within five days of his 18th birthday, a man shall "present himself for and submit to registration."
2. The registration card is filled out by the draft board secretary — identification, occupation, marital status, etc. The registrant signs it. You can register with the nearest draft board, and your registration will be sent to the board having jurisdiction over your "permanent" address. (You do not "register as a C.O."; this comes at the time of classification.)
3. After several months (varying with different draft boards and the need for draftees), the board will send a Classification Questionnaire, SSS Form 100, which is divided into 15 series of questions.
4. Series VII (formerly XV) provides the first opportunity to ask for consideration as a C.O. Section 6-j of the draft act provides that no person shall be subject to training and service in the Armed Forces who, by reason of religious training and belief, is conscientiously opposed to participation in war. If you are a C.O., sign Series VII, asking for Special Form 150. If at a later date you become a C.O., you can obtain the C.O. questionnaire from your draft board.
5. When you sign Series VII, your draft board will send Form 150 to you (perhaps not immediately).
6. After you have returned Form 100 (and 150 if you filed it), you will be classified and receive notice of your classification.
7. Your draft board should classify you in the lowest classification for which you are eligible. I-A is the highest.
 I-A — Available for military duty.
 I-A-O — C.O. available for noncombatant duty.
 I-O — C.O. available for civilian alternative service.
 I-S — High school student, or college student ordered to report for induction but deferred to complete his school year.
 II-A — Deferred for essential civilian work (e.g., research).
 II-C — Deferred for essential agricultural work.
 II-S — Deferred for college or graduate study.
 I-D — Member of organized reserves, National Guard, or student in officer procurement program.
 III-A — Dependency deferment.
 IV-D — Minister or ministerial student.
 IV-F — Physically, mentally or morally unfit.
 I-W — C.O. performing civilian work.
8. If you are denied the classification you seek, you have the right of personal appearance and of appeal. Consult a competent counselor immediately.

REFRESHMENTS SERVED

When the time comes for draft registration, what choices does a young man have?

Go to almost any high school and hear the answers. Army. Navy. Air Force. Marines. A military man explains the advantages of each. Sometimes each force sends its own representative to recruit the young men.

But what of the young man whose conscience does not allow him to participate in war, but who wishes to serve his country in a positive way. Is there an alternative for him?

That's what this film is about. Our government does provide an alternative, but too often the men who should know this don't hear about it until too late. The film explains what conscientious objection is. It outlines the provisions for alternative service for COs in the Selective Service Law and the ways in which individual young men are carrying out those provisions.

Every youth approaching 18 should see

this film. Every high school should show it along with the government-produced films of military life. Every church and community group should take the responsibility for seeing that young men have the chance to understand its content before they are called to register.

Alternatives is a 24-minute, 16 mm. sound film in full color. It includes both art and live action sequences showing conscientious objectors at work in various kinds of alternative service.

Actor Don Murray, himself a conscientious objector to war who did his alternative service in Italy, appears as narrator of Alternatives.

This film was produced cooperatively by more than 40 religious and peace organizations. Script is by Stanford Sobel; art work and production by Visualscope, New York. The following organizations are sponsoring distribution of the film:

American Friends Service Committee
Brethren Service Commission
United Christian Missionary Society
Fellowship of Reconciliation
Five Years Meeting of Friends - Board on Peace
Mennonite Central Committee
Methodist Television, Radio and Film Commission
National Service Board for Religious Objectors
United Church of Christ - Bureau of Audio Visuals

"Since I was not brave enough to become a conscientious objector, I became a soldier."

Re: Inspector Robert E. Wick

resulted in an outgoing letter being erroneously submitted for the Director's approval expressing his regret at not having seen the individual. If the proposed letter had been approved and sent, it would have been most embarrassing.

During an inspection of that division in January and February, 1960, the Inspector stated he had considerable ability as a contact man, was a hard worker, quick thinker and a loyal, enthusiastic supporter of the Bureau. He manifests great interest in his work, was thoroughly familiar with the importance of the work he was doing, and the Inspector recommended he be continued in that assignment. The various functions of the division were rated Very Good in Physical Condition and Maintenance, and Liaison - Contacts. They were rated Good in General Operations, Administrative Operations and Personnel Matters. As the result of this inspection, he was CENSURED for an undue delay in handling and routing two items of special correspondence to the Director's Office.

He is available for general and special assignment and is interested in, available for, and qualified for administrative advancement.

According to the latest information available his weight is within the desirable limits.

As of January, 1960, he listed his office of preference as "Wherever Director Desires."

By letter dated 7-20-60 the Director extended best wishes and congratulations on his Eighteenth Anniversary with the Bureau.

His daily average overtime exceeded the average of the Crime Records Division for the last 6 months and is as follows: June, 3 hours 30 minutes; July, 6 hours 29 minutes; August, 5 hours 4 minutes; September, 4 hours 30 minutes; October, 3 hours 50 minutes; November, 3 hours 47 minutes.

This is to recommend that incentive awards be given to the individuals set forth below in connection with their work in the captioned case. These individuals were designated by SAC Hostetter while he was at the Bureau in July, 1960, as the individuals who contributed the outstanding work in connection with this investigation. SAC Hostetter on 11/4/60 restated his views.

Memorandum C. R. Davidson to Mr. Callahan, 11/9/60, recommended that at such time as the Coornap investigation was brought to a logical conclusion the performances of the individuals involved, including the SOG Supervisor, be re-evaluated by the Investigative Division with the assistance of SAC Hostetter with a view of recommending the most deserving for special recognition in the form of incentive awards.

SAC Hostetter in July, 1960, and on 11/4/60 advised that he considered the following as the individuals who contributed outstanding work in connection with this case:

SA [redacted] (Portland Office) was responsible for the Royalite typewriter project which was instituted to endeavor to tie [redacted] into the typewriter used for the ransom note. It was necessary to wade through countless records and interview numerous people; however, through sheer determination, a salesgirl was located who tentatively identified [redacted] as purchasing the Royalite typewriter from her.

SA GLENN H. BETHEL (Denver Office). The Sheriff was a problem in this case as he was trying to run with the ball. SA Bethel in the face of the Sheriff's attitude established excellent liaison with the Undersheriff and Captain of Detectives, materially aiding our investigation in that we promptly obtained all information received at the Sheriff's Office of value in connection with this case. Bethel handled the evidence at the scene and was utilized on several projects resulting in Corbett as a suspect.

SA CHARLES G. CAMPBELL (San Francisco Office) and SA [redacted] (Albuquerque Office) were project leaders in the search for the victim in the mountainous area of Colorado. The search was extremely difficult in view of the

mountainous, rugged terrain abounding in mine shafts, pits, and numerous caves 100 to 200 feet deep filled with water.

SA PAUL S. CASEY (Minneapolis Office) and SA NORMAN S. HIGSON (Salt Lake City) conducted most of the preliminary investigation which resulted in the identification of [] as a prime suspect. Most of the interviews were conducted at the Benjamin Moore Paint Company and [] apartment house.

SA CHARLES F. HEMPHILL (Salt Lake City) handled much of the project-type and lead-type investigation in connection with suspect []. He made several worth-while suggestions which contributed to the over-all picture of the development of [].

SAC MAYNOR (Butte) served as Number One Man of the special squad and on him fell the enormous burden of handling the paper work and many of the administrative details. Maynor has been described as the hub around which the special squad operated.

SA [] (Denver) Both the Coornap case and the [] fugitive case were assigned to SA []. He not only collected much of the background data necessary for some of the major projects but, in addition, thoroughly aided and handled much of the administrative operation of the special squad. He had original supervision and responsibility for the work of all of the auxiliary offices relative to the fugitive case. Upon the departure of SA Pranke he prepared and maintained all lead cards not only those assigned to Agents on the special but likewise all leads assigned to auxiliary offices.

SA RICHARD N. PRANKE (Minneapolis) was of tremendous assistance to the SAC as he prepared and maintained all lead cards, followed the leads with the Agents on the squad, as well as auxiliary offices, maintained liaison with the Chief Clerk to insure appropriate sub-files and reference cards were prepared. His assignment involved the reading of most of the incoming and outgoing communications and as a result of his retentive memory and past experience he was able to make numerous worthwhile suggestions.

SA [] (Butte) was responsible for a number of projects which were investigated, many of which pinpointed activities of []. He also handled some of the key interviews. SAC Hostetter has classified his work as outstanding, stating SA [] demonstrated himself as one of the most capable investigators in the Bureau's service.

Memorandum to Mr. Parsons
Re: COORNAP

SA JESSE R. WAGNER (San Francisco) was assigned as the report writer. It was his job to coordinate all the material and arrange it in a clear concise readable report. SAC Hostetter said SA Wagner's handling of the report writing was outstanding and the reports were literally hundreds of pages in length.

SA DOUGLAS J. WILLIAMS (Denver) served as the equipment officer and as such it was necessary for him to secure all equipment necessary and in fact to anticipate some of our needs. As he had prior experience in the mining area at Butte he was able to organize and direct the search in the mountainous area of Colorado looking for the body of the victim [redacted] It was Williams who on September 11, 1960, received the original information leading to the location of the victim's body. He set up the machinery to enable us to conduct the search and handle the details at the scene.

In addition, it is to be noted that Seat of Government Supervisor J. Robert Boger also performed outstanding work in connection with this matter. This Agent supervised both the Kidnaping case and the Fugitive case from their inception. It was his responsibility to make available on a minute's notice to Bureau officials any necessary material. He was responsible for the enormous dissemination of Wanted Flyers, Identification Orders, and write-ups on subject [redacted] In addition, he made innumerable suggestions for investigation. He had the primary responsibility for supervision of this case at the Seat of Government and coordinating the activities between the field offices.

RECOMMENDATION

It is recommended that each of the above individuals be given an incentive award in an amount to be determined by the Administrative Division.

It is recommended that SAC Werner, Denver, receive an individual letter of commendation for his contribution to the success of this case and, in addition, it is recommended that a general letter be directed to the Denver Office in order that a copy may be placed in the files of those Agents who have assisted in the investigation and who have not previously been commended.

Attached is a copy of the above-entitled article which appeared in the American Weekly yesterday. This article provoked a great deal of favorable comment. For example, Ed Guthman, Public Information Officer of the Department, told Kemper this morning he thought it was an excellent article and was complimentary of the Bureau for using this type of publicity in efforts to apprehend fugitives.

Inspector Wick in my office worked with Jerry terHorst in connection with this matter, and the results are the direct result of Inspector Wick's efforts in this regard.

RECOMMENDATION:

That Inspector Wick be commended for handling this matter which resulted in excellent publicity for the Bureau.

By Jerry terHorst

A woman whom J. Edgar Hoover would like most to spend the next few days catching up with is brown-eyed Janett Carroll Crusenberry. She never starred in Hollywood, never sang on Broadway or won a beauty contest. But Janett has her attractions, at least for the FBI. She enjoys trussing up people with stovepipe wire, particularly during bank robberies. And she packs a mean punch as well as a menacing pistol. For this, 29-year-old Janett has the dubious distinction of being one of the women most hunted by FBI Director Hoover.

Almost everyone has heard of the FBI's list of the "Ten Most Wanted Men." For years, their photographs and names have dominated every Post Office bulletin board. Newspapers and radio and television stations constantly urge you to be on the lookout for them. But the FBI has never conducted the same kind of campaign to apprehend women.

Now the FBI has given The American Weekly the dossiers on Janett Carroll Crusenberry and four of her counterparts in crime: Ellen Yolenda Samuels, 26; Ruth Paige Bogli, 37; Mary Catherine Lawson, 38, and Dale Colvin, 44, for special attention. These five stand out because, in almost every case, they have invaded fields of illegal activity which provide careers for the outlaws who give police and law-abiding Americans a \$20 billion headache each year. Mr. Hoover has a hunch that the millions of Americans who read this story may be able to help him capture these wanted women.

Wishful thinking? Not at all. Of the 137 male fugitives apprehended since the "Ten Most Wanted" listing was begun in March, 1950, 56 of them were caught on the basis of information supplied by newspapers, magazines, circulars, radio and TV.

The FBI found that women commit twice as many murders, 60 per cent more deadly assaults and 50 per cent more narcotics violations.

Advises Mr. Hoover: "If you know the whereabouts of any one of these women or possess any information which may assist in locating her, please immediately notify the nearest office of the FBI. The telephone number may be found on the first page of your local directory."

At right are FBI clues to help you:

ELLEN YOLENDA SAMUELS

Ellen is the youngest and possibly the most volatile of the five wanted women. She grew up in a Denver orphanage, was adopted at the age of 10. At 17, Ellen left Denver with two men and was arrested in Kalamazoo, Michigan, on a larceny charge. Police sent her home.

In July, 1958, while awaiting trial in Denver on a check-passing charge, Ellen struck up a friendship with two gunmen who had just robbed the Gotham Hotel of \$476 and had pistol-whipped a hotel clerk. The next day, July 9, Ellen obtained a stolen car and the trio staged a daring daylight robbery. A few hours later, they were identified as the trio which held up a store in Lakewood, Colorado, where the woman proprietor was struck on the head with a pistol. Ellen and her two companions then drove on to California where they split up. Both men were captured a few weeks later.

Ellen apparently went to San Diego where she went to work in a drug store. She left in late October and there the trail ends.

Ellen has an olive complexion, and usually dyes her brown hair red or black. She is five feet, three inches tall and weighs about 125 pounds, has scars on her forehead and left ankle, plus surgery scars on her abdomen. She has worked variously as a bar hostess, waitress and clerk. Among her many assumed names are these: Clara Beach, Mrs. Paul Berry, Juanita Gerard, Ellen Hohnstein Giraldi, Juanita Lechuga, Yolanda Marie Giraldi.

JANETT CARROLL CRUSENBERRY

Identified by the victims as the woman who, with a male accomplice, held up the Poplar Grove State Bank, Poplar Grove, Illinois, on August 26, 1955, and the Farmers State Bank of Danforth, Illinois, on September 20, 1955. In both cases, several bank employees and customers were cruelly bound with stovepipe wire, ordered to lie on the floor and their mouths taped by Janett. At the Poplar Grove bank she savagely struck the woman cashier. At the Danforth bank Janett jumped on the back of the cashier and remarked: "I'd just as soon shoot him now as later." The terrified cashier opened the safe.

Janett's accomplice, Howard John Hansen, was arrested nearly two years later in Chicago and confessed five bank holdups and implicated Janett. Sentenced to Leavenworth Penitentiary for 18 years he was released last October when it was found that he had lung cancer. He died a month later.

Janett was born at Appalachia, Virginia. Her father died when she was 14 and her mother moved away. Janett is five feet, five inches tall and weighs about 115 pounds. She has brown hair, a mottled complexion and she may be wearing false teeth. The bank victims described her as "mean," "coarse," "easily angered." Her aliases include these names: Carol Ellis, Jeanette Carol Moore, Jeanette Ellis. She is wanted on federal warrants charging bank robbery and criminal conspiracy.

MARY CATHERINE LAWSON

It was spring in Dixie that fated day in 1957 when Mary and her five-year-old daughter boarded a bus at Silas, Alabama. It was the end of a family visit in her home town and Mrs. Lawson was going back to her husband in Wichita Falls, Texas. On the bus she met a man who said he was Joe Stewart, an oilman.

A few weeks later Mrs. Lawson left home with her daughter and joined Stewart in Meridian, Mississippi. There she put the child on a bus bound for Mobile, Alabama, and told the driver that an uncle would pick up the girl. The distraught husband and father went to Mobile to reclaim his child. Then he talked Mary into returning home.

She stayed two weeks before leaving permanently for Stewart and the uneasy life of a federal fugitive. For Stewart's business was fraud. Since June, 1957, Mary and her boy friend have bilked hundreds of businessmen by cashing worthless checks.

Mrs. Lawson is five feet, seven inches in height and weighs about 135 pounds. She has light brown hair and brown eyes and may be wearing glasses. Stewart is 38, a brawny six-footer who weighs 200 pounds, has wavy black hair and a ruddy "outdoors" appearance. The words "Doreen" and "Joe" are tattooed on his left forearm. Generally, they have masqueraded as a married couple under the assumed last names of Hemert, Johnson, Landry, Lawson, Stewart, Poole, Wilson and others.

RUTH PAIGE BOGLI

On October 28, 1949, Mrs. Bogli and two other women convicts slipped through a wooden partition in the kitchen of the Reformatory for Women at Framingham, Massachusetts, and escaped in the autumn dusk. Just before they separated at Schenectady, New York, Mrs. Bogli told her companions: "I'm going to Buffalo to get a gun and get the money I've hidden." She confided that she would cut her hair and try to pass herself as a man. Her companions were captured hours later. But Mrs. Bogli has disappeared as completely as if the earth had swallowed her.

At the time of her escape, Mrs. Bogli was serving a five-year term imposed in 1947 for a series of nighttime burglaries in resort camps near Worcester, Massachusetts. She was born as Ruth Paige at Epping, New Hampshire, on September 23, 1923, the oldest of nine children. Although regarded as possessing but borderline intelligence, the FBI credits Mrs. Bogli with considerable cunning.

She also is considered to be an extremely able seamstress.

Mrs. Bogli is a slender woman, five feet, six inches in height and weighs about 115 pounds. She has brown eyes, brown hair, a burn scar on her head and other scars on her right eyebrow and right wrist.

The fugitive may be known as Mrs. George DuFraine or Dufrane or she may be using her maiden name.

DALE COLVIN

Twenty years ago, this stocky, windburned woman was in prison for her first serious offense—forgery. Then followed five more prison sentences, for offenses ranging between forgery, robbery and mail theft.

In May, 1944, two months after finishing a term at Huntsville, Texas, Dale enlisted in the Women's Army Corps. But she deserted in August the same year and then disappeared until September, 1945, when she was arrested for forging a government check.

For the next seven years, Dale was in and out of prison uniform. Then Dale "went straight." But the pendulum swung back in November, 1959.

Dale disappeared from La Feria, Texas, with a stolen car that later was found in Childer, Arkansas. A federal warrant was subsequently issued against her for transporting a stolen automobile across state lines. And once more the FBI was on her trail.

Little is known of her background. She claims to have been born on December 9, 1916, at Lelia Lake, Texas. Dale has brown hair, blue-grey eyes, is about five feet, five inches tall and weighs approximately 145 pounds. There are scars across her nose, on her right cheek and right wrist. One upper left front tooth may be missing.

She has also used the names of Dale Colidin, Eldora Colvin, Mary Proctor, Del Miller and Marry Katherine McGraw.

ASSISTANT DIRECTOR C. D. DeLOACH :

Inspector Wick makes a clean-cut, neat appearance and impresses outside contacts most favorably. He works with a minimum of supervision and has a very admirable trait of determination. He is particularly adept at handling press inquiries and releases. He is completely loyal, conscientious, honest, and at the same time amenable to instructions given him on a "pressure basis" throughout the day. He is dependable. One of his greatest assets is the ability to dig out pertinent facts which make interesting press releases. His office of preference is "wherever the Director desires." Since the last inspection, he has been censured on only one occasion. He has been commended five different times for excellent work and on the occasion of his last efficiency report he received an "Outstanding" rating. This man is an excellent Number One Man and a good "partner" to assist in running the Crime Records Division.

Rating: Excellent

INSPECTOR R. K. MOORE
(mbk, 3-10-61)

Inspector concurs with the remarks of the Assistant Director. Inspector Wick is an exceptionally "hard-working" individual who is under a considerable amount of pressure and who has to make innumerable decisions requiring extensive knowledge of the Bureau's policies and procedures daily. Over the years he has obtained through experience a wonderful reserve of "know-how" in dealing with the press, contacts, and handling of personnel. Inspector observed Mr. Wick "under fire" on several occasions during the inspection and he performed in an exceptionally good manner. His decisions were sound, practical, and with the interest of the Bureau predominant in all. He is qualified to assume additional responsibilities.

The Director has requested that a letter of explanation be prepared relative to the manner in which Wick handled the request received from Mr. Mullen in the Department last Friday afternoon for a name check on the captioned individuals.

R. E. Wick

Mullen asked Wick for a quick name check confined to subversive derogatory data on all three individuals. We were able to supply that information promptly and accurately. The File Review people handling the request did a marvelous job and should be commended I believe.

043-494

The review of files requested, conducted and reported was in strict accordance with established policy: there was no deviation; Mullen asked for subversive derogatory data and he was so informed promptly.

Had we been requested to give Mullen the results of a complete review of Bureau files, obviously Wick would have told him we could not do it in the time given. He would have resisted such pressure and would have told Mullen his request was impossible. However, this is not what Mullen requested.

I have talked this over with Wick and have pointed out it would have been much better at the time to have told Mullen that was a "states' righter" as are most influential Southerners. Wick thoroughly understands this and understands also that in a matter of this type we must lean over backwards to be accurate, careful and exhaustive despite the specific request.

b6

As I see it, the specific request was properly handled and reported by Wick in the light of a thorough review of the files and references subsequently.

Mr. Wick notified me at 7 a. m. this morning that his mother had passed away during the night. She lives in Dell Rapids, South Dakota. His mother was quite elderly and had been ill for some period of time. Apparently her death was peaceful inasmuch as she passed away in her sleep.

Mr. Wick's father is 85 years of age; consequently, he must leave immediately. He plans to drive to Dell Rapids.

I told Wick that the Director would want him to take as much annual leave as necessary and for him to forget the responsibilities of his office.

This afternoon the May 19, 1961, edition of "Life" magazine appeared on the newsstand which contains four full pages of material relating to the FBI. Two pages, 48 and 49, concern the New York Life Insurance Company Institutional advertisement. You will recall that this also appears in the recent issue of the "Saturday Evening Post" and is receiving tremendous publicity throughout the country.

Pages 129 and 130 reflect a picture story entitled "Mystery of the Mixed-Up Twins." The FBI, which is mentioned repeatedly, is given full credit for solving Mrs. Keller's dilemma about the identity of her twins.

At the very outset, Inspector Wick recognized the tremendous human interest associated with this identification and arranged for appropriate press coverage at the time the identification was made. He furnished instructions to Resident Agent Francis X. Jahn of the Hyattsville Resident Agency who brought Mrs. Keller and her twins to the Identification Division. Resident Agent Jahn has been commended by the Director for his action. All of the Washington newspapers carried stories relative to this matter and gave FBI full credit. The Associated Press photograph and story has appeared in papers throughout the country showing the human side of the FBI.

Inspector Wick, through a most effective liaison with representatives of "Life" magazine, interested "Life" magazine in doing a story on this FBI identification. He furnished photographs of the footprints and the birth certificates and vigorously followed this matter. Due to the tremendous amount of material already made up for the current issue, "Life" at first was reluctant to squeeze this story in but through Wick's persistence, tactful handling which convinced "Life" of the outstanding human interest aspects of the FBI identification, "Life" did the story. This story, which certainly shows the human side of the FBI, will undoubtedly be seen by millions of people.

RECOMMENDATION:

It is recommended that Inspector Wick be commended for his effective liaison with "Life" magazine representatives which resulted in this excellent coverage of the FBI identification procedures.

Director, FBI (98-45626)

6/20/61

SAC, Salt Lake City (67-503)

TELSAB

Early on Sunday morning, May 28, 1961, when the three explosions occurred in instant case, there was extreme concern on the part of the military, American Telephone and Telegraph Co. (AT&T) and the press on a nationwide basis. We were besieged with inquiries about these acts of sabotage. A nationwide alert was placed by the Air Defense Command for fear there would be other acts of sabotage that would adversely affect the national security. Inquiries were also received from the War Room of the Pentagon.

Immediate arrangements were then made by ASAC HEBER M. CLEGG and me to handle this investigation as a major case on a special basis, utilizing a special indices. Agents were dispatched to the scenes of the three explosions by helicopter with other Agents following with equipment in automobiles. All leads of an urgent nature were handled via Long Distance telephone call and teletype by the ASAC and myself. The local military was kept informed of any significant developments of interest to them. AT&T top officials from New York City flew to Salt Lake City to supervise the reinstallation of these vital relay stations and to arrange for guards for all of their stations previously unmanned.

As the Bureau is aware, we encountered extreme difficulty in identifying [redacted] who had deliberately avoided recording any background data under that name. Then, after [redacted] was identified as Subject [redacted] the investigation was directed toward connecting him with the offenses and establishing his whereabouts. There was extreme pressure on locating him and putting a stop to his activities, and at the same time establishing sufficient evidence to cause his apprehension. He had made threats in letters to AT&T, President KENNEDY and numerous other public officials, including newspapers, that the next attacks would be launched against the company's property with poisonous gas. This created great concern and tension among AT&T

officials as well as the military. I mention the above so the Bureau will understand the extreme urgency under which we were operating in directing investigation by this and all other offices, since we suspected [redacted] as being the true offender but at the same time had to take cognizance and action against any other suspects to make certain we were not overlooking any phase of this investigation. This made it necessary for the ASAC and me to devote full time day and night to this case from its beginning to the present time.

b6
b7C

Since important leads were being set forth telephonically and by teletype, it was necessary to confer with the Bureau in several instances. I had occasion to confer with the following Bureau officials:

Mr. ALAN H. BELMONT
Mr. JOSEPH A. SIZOO
Mr. FRED J. BAUMGARDNER
Mr. ROBERT E. WICK

I wish to point out to the Director the splendid cooperation and quick responses made by each of the above officials in helping us to resolve an urgent problem. Their spirit and sense of urgency were most helpful to us in keeping this case moving at a rapid pace. Especially, I wish to point out the close coordination with Mr. BAUMGARDNER Saturday night, June 17, and early Sunday morning, June 18, 1961, when we were in constant telephonic communication concerning process and instructions of the Department.

Also, I wish to mention the press release prepared at the Bureau and the splendid effect it had on radio, television and newspapers in this area. The Bureau received full credit for solving this case and locating the Subjects. The press announcement was read in its entirety by radio and television commentators and quoted by newspapers. I had occasion to confer with Mr. WICK prior to this release, and I feel that the work which he and possibly others performed in this preparation is certainly worthy of special mention.

In view of the tremendous importance of this investigation and the successful solution of this case, it is recommended ASAC HEBER M. CLEGG receive an incentive award of \$500.

SU 37-503

The Bureau is aware of the numerous items of evidence collected by Agents at the three scenes of the explosions. I feel that the two Laboratory representatives and Agents of this office who performed all the work at the scenes acquitted themselves in excellent fashion and are certainly worthy of commendation by the Director for their thoroughness, alertness, sense of urgency, effectiveness and determination to establish the identity of the offenders, in addition to the long hours spent on this work. The installations were completely demolished, making it extremely difficult to find all items of evidence that might be pertinent. These Agents are:

b6

It is felt that each of the above Agents should receive a letter from the Director thanking him for his performance.

In addition, it is felt that SA DELMAR L. LARSON should be commended not only for his work at the scene of the explosions, but also for his fine work in preparation of the reports based upon their findings.

In addition, it is pointed out that every Agent, Secretary, Stenographer and Clerk in this office performed work in this case; many remained after hours to complete their assignments and even during the week ends. It is felt that a letter from the Director to the office as a whole thanking all personnel who participated in this case, both investigative and non-investigative, would be appropriate and would certainly be an incentive to all employees.

SU 67-503

This case is continuing as a special investigation until we are certain that Subjects [] and [] had no accomplices in the execution of these explosions who could be prosecuted.

The Bureau is aware of the fine work performed by several other offices in assisting to uncover the identity of [] the first important suspect developed. Also, fine work was performed by several offices assisting in locating [] after he was identified as [] and connecting him with these offenses. I specifically mention the following offices:

El Paso
Houston
Las Vegas
Los Angeles
New Orleans
New York City
San Diego

The Bureau might wish to check with these offices concerning any recommendations for their own personnel, since most of my information is based upon telephone calls and teletypes not specifically identifying investigative personnel and the techniques they might have employed.

When the Bureau made its press announcements Sunday, June 18, 1961, I received telephone calls from AT&T officials in New York City, San Francisco, Denver and Salt Lake City thanking the FBI for its fine work and emphasizing how much the solution of this case means to their company and personnel. We also received congratulations for the FBI from the local, military, and many prominent citizens in this area. An editorial which appeared June 20, 1961, in THE SALT LAKE TRIBUNE, the leading newspaper in this area, began with, "The Federal Bureau of Investigation did an excellent job in solving the May 28 sabotage of radio-telephone facilities in Utah and Nevada." This editorial is being submitted by separate communication.

BACKGROUND:

Early on Sunday morning, 5-28-61, an explosion occurred at a microwave relay station, Wendover, Nevada. Within ten minutes explosions occurred also at microwave relay station Cedar Mountain, Utah, and underground cable relay station at Knowles, Utah. All these stations which were the property of the American Telegraph and Telephone were destroyed. Damage was estimated at \$1,250,000. Since these relay stations are part of the chain which carries vital defense communications, their deliberate destruction brought the matter within the Bureau's jurisdiction as a possible sabotage violation.

These explosions caused extreme concern on the part of the military and the press on a nationwide basis. The Bureau, both at the Seat of Government and in the field, were besieged with inquiries concerning these acts of sabotage.

A nationwide alert was placed by the Air Defense Command for fear there would be other acts of sabotage which would adversely affect the national security. Numerous states called out their National Guards to protect similar facilities located within their boundaries. The War Room of the Pentagon made anxious inquiries regarding this situation.

We immediately instituted an investigation with the Salt Lake City Division acting as Office of Origin. This investigation quickly spread over most of the domestic offices and there were also leads for our Legal Attaches in foreign countries.

After an exhaustive investigation we were successful in identifying and apprehending the subjects in this investigation.

COMMENDATORY ACTION

SEAT OF GOVERNMENT PERSONNEL:

In view of the excellent work performed by Bureau personnel both in the field and at the Seat of Government there is set out herein recommendations for incentive awards and letters of commendation for the deserving personnel.

Domestic Intelligence Division:

Section Chief Fred J. Baumgardner:

It is recommended that Section Chief Baumgardner be granted an incentive award in the amount of \$200 for the consistent outstanding overall direction he afforded to this investigation from its inception. He was in frequent contact with the field by telephone and on a daily basis consulted with the Seat of Government Supervisor and made helpful suggestions throughout the investigation, especially on the afternoon of 6-17-61 when the subjects were located in Ensenada, Mexico. He worked out with SAC Blaylock the overall plan which resulted in the arrest of the subjects in Mexico. In addition, on the night of 6-17-61 he consulted at length with Departmental attorneys in order to obtain from them the complaint which was subsequently used before the United States Commissioner in Nevada in obtaining warrants for the arrests of the subjects. Also, throughout the night on 6/17-18/61 he coordinated our negotiations with the Mexicans by telephone with our Salt Lake City and San Diego Offices. Mr. Baumgardner made an outstanding contribution to the successful conclusion of this investigation. It is therefore recommended that he be afforded an incentive award in the amount of \$200.

He used initiative in deciding what investigative steps would be most productive and sent numerous instructions by teletype to the field. He also furnished the field helpful information obtained from file reviews. His work was instrumental in breaking this case. In view of his outstanding performance it is recommended Mr. Farr be afforded an incentive award in the amount of \$200.

Therefore, it is recommended he be afforded a letter of commendation for his contributions in this matter.

Andrew J. Decker

Mr. Decker is the night supervisor for the Domestic Intelligence Division. During the early morning hours of 6-19-61 Mr. Decker handled several telephone calls from the field in connection with this matter and promptly prepared a memorandum which was available for the Director and Bureau officials at the opening of business on 6-19-61. In addition, during the course of the investigation, Mr. Decker reviewed incoming teletypes during the night and in the event any immediate action was necessary, consulted with the supervisor handling the case and then took appropriate action. Mr. Decker handled his assignment in connection with this matter in an intelligent and vigorous manner. It is recommended, in view of his over-all excellent performance in connection with this case, he be afforded a letter of commendation.

She has handled much of the routine administrative matters incidental to a big case of this type on her own initiative. She has worked long hours without regard for her own convenience. In view of her over-all excellent attitude and the excellent manner in which she has performed, it is recommended she be afforded a letter of commendation.

and handled the many clerical functions incidental to a case of this magnitude on her own initiative. She has proved of invaluable assistance to Mr. Farr and her alert and enthusiastic approach to her duties are worthy of special mention.

Laboratory Division (Recommended by Briggs White No. 1 Man of Division)

Special Agents George A. Berley and [REDACTED] of the Laboratory were sent to the scenes of the three explosions. After flying nearly all night, they arrived at Salt Lake City at 7:15 a.m., 5-29-61. They immediately went to the scenes of the three explosions and did an excellent job in supervising the technical phases of the crime scene searches, collection of evidence and preliminary evaluation of the specimens recovered. Evidence from the scenes were brought to the Laboratory by Berley and [REDACTED] and they correlated and supervised the technical aspects of the examinations relating to the explosives phase of the case. They handled dangerous explosives at the scenes and their over-all handling of the technical phases of the case was outstanding and important to the successful outcome.

Special Agent James V. Blaine of the Laboratory handled literally hundreds of document examinations and comparisons all on an extremely expedite basis and made highly significant findings identifying subject [REDACTED] with threatening type letters that play an important role in the case. Much of the work was done after regular working hours and on weekends. Special Agent Blaine worked on this case Tuesday (holiday) 5-30, Saturday 6-3, Saturday 6-10, Sunday 6-11 and Saturday 6-17 contributing many hours of his personal time on a VOT basis. Therefore, it is recommended that Special Agents George A. Berley, [REDACTED] and James V. Blaine be afforded letters of commendation for their superior contribution and performance in this case.

Identification Division (Recommended by Assistant Director Trotter)

A large amount of evidence was forwarded to the Identification Division for processing for latent fingerprints in this case. Among the many latents developed were two on a cement bag found at the rear of one of the buildings destroyed. These latents were compared with the prints of all named suspects.

Memorandum to Mr. Belmont

RE: TELSAB [REDACTED]

98-45626

On 6-17-61 Latent Fingerprint Examiner [REDACTED] compared the prints of suspect [REDACTED] FBI#173 417 D, with all the latents developed in this case. He identified the two latents appearing on the cement bag with the fingerprints of [REDACTED]. This identification definitely placed [REDACTED] at the scene of the crime. The examination which was conducted by [REDACTED] late Saturday afternoon, 6-17-61, was handled in a most commendable manner. The identification was made from fragmentary fingerprint impressions and [REDACTED] exercised unusual skill and ingenuity in making this identification. It is, therefore, recommended that [REDACTED] be commended by letter for his work in this case. b6

Crime Records Division (Recommended by Assistant Director DeLoach)

Mr. DeLoach advised that Robert E. Wick, No. 1 Man of the Division, and Supervisors Charles E. Moore, Jr., and Harold P. Leinbaugh prepared the press release in connection with this case. These men prepared an excellent release, as a result of which nationwide publicity favorable to the Bureau was received. They approached their task enthusiastically and all three performed in an above-average manner. In view of this, Mr. DeLoach recommended these men be afforded letters of commendation.

FIELD PERSONNEL:

Salt Lake City Division:

SAC Leonard Blaylock:

As soon as this case broke SAC Blaylock of our Salt Lake City Office took personal charge of this investigation. As Office of Origin he organized the investigation in his Division so that the most would be gained from the man power at his disposal. The investigation spread rapidly and SAC Blaylock demonstrated he possessed the necessary scope to cope with an investigation of this magnitude. He saw to it that all leads were handled by teletype or telephone and organized his office administratively so that reports and other communications were submitted to the Bureau promptly. He was on top of the situation at all times and in the very beginning arranged to have Agents flown to the scene of the explosions by helicopter. He maintained this pace throughout the investigation. During the course of the investigation

Memorandum to Mr. Belmont

he also handled inquiries from the local military people as well as top officials of American Telegraph and Telephone who flew to Salt Lake City from New York City to supervise reinstallation of the damaged relay stations. SAC Blaylock handled this case in an aggressive, enthusiastic manner and performed in an above average fashion. Therefore, it is recommended he be afforded an incentive award of \$250.

San Diego Division:

SAC Frank L. Price:

Upon receiving information from the Los Angeles Office that the subjects had possibly left Wilmington, California, aboard the ship "Monsoon" took personal charge of the investigation to locate the boat and the subjects. He dispatched an Agent to Ensenada, Mexico, to locate the boat and when it was located proceeded there and personally supervised the arrangements to have Mexican officials arrest the subjects and search the boat. An arsenal of arms and ammunition was found aboard the boat and he insisted in the evaluation of the evidence. SAC Price participated in the interviews in Mexico of the subjects and established liaison with Mexican authorities to protect the Bureau's interests. He thereafter took personal command of the arrests of the subjects when they were deported by Mexican authorities and arranged for their arraignment before the United States Commissioner at San Diego, California. SAC Price afforded alert, aggressive and sound leadership in the highly delicate negotiations with Mexican authorities and was able to protect the Bureau's interests at all times. In view of his outstanding performance it is recommended he be afforded an incentive award in the amount of \$250.

In addition to the incentive awards for SACs Blaylock and Price mentioned above, a number of field offices whose Agents performed outstanding work on this case submitted recommendations for their personnel by teletype. The Administrative Division is handling these recommendations separately based on the information set forth in the teletypes.

In order that a brief picture of the recommendations made by the field may be had, there is set out below by office the number of incentive awards and commendations recommended.

ADDENDUM ADMINISTRATIVE DIVISION NEM:crt 6-21-61

Based on information submitted by Domestic Intelligence Division, the Laboratory, Identification Division and the Crime Records Division, in addition to that furnished by a number of SACs, it is obvious that this important Sabotage case was handled in an exemplary manner and special recognition is warranted. The following are deserving of incentive awards:

SAC Blaylock, Salt Lake City, for the outstanding manner in which he personally took charge of the investigation in his division and was on top of the situation at all times. He handled many inquiries from local military people, as well as officials of American Telegraph and Telephone who were in Salt Lake City.

SAC Price, San Diego, who directed an alert, aggressive and highly delicate investigation with Mexican authorities which included location, arrest and extradition of subjects from Mexico and their arraignment and incarceration in San Diego.

SOG Supervisor Farr who supervised case at SOG from inception handling a tremendous volume of expedite communications to and from field offices with helpful instructions which were instrumental in breaking this case.

SOG Section Chief Baumgardner for the outstanding direction afforded this investigation from the Bureau. He coordinated all contacts with SACs, Departmental attorneys and Mexican authorities and made many helpful suggestions throughout the investigation.

Based on approved tables for determining the amounts of incentive awards the performances of these men are considered to be of moderate value and broad application to the work of the Bureau entitling them to awards of from \$150 to \$300.

As outlined in the foregoing by Domestic Intelligence Division a number of other SOG personnel are deserving of individual commendations.

Included in the recommendation for commendations is SOG Supervisor Harold P. As you know, a great deal of press and television interest was focused on October 5, 1961, on the return by the Washington Field Office of nearly \$17,000 in cash to an elderly couple from whom the money had been stolen in Sweden. This case arose from the Foreign Police Cooperation Program of the Liaison Section, and its human interest elements were recognized by SA of that section who supervises this program.

Had it not been for alertness, interest, and enthusiasm, this case might well have escaped any notice and Mr. DeLoach's office would not have had the opportunity to invite press attention to it. We believe that this recognition of the Bureau's over-all interests should be encouraged.

Addendum: (CDD:sak): 10-9-61:

The Liaison Section did bring to our attention the facts of this case. The Crime Records Division assumed work in connection with the matter from then on. Inspectors Wick and Kemper handled the entire matter, saw to it that television cameras were there, newspaper reporters, wire service representatives and afterwards saw to it that the proper coverage and credit was given to the FBI. While Special Agent [] should be commended for suggesting to the Liaison Section, the Liaison Section in turn bringing this case to our attention, Inspectors Wick and Kemper performed the work in this matter and should be commended likewise.

Dear Mr. Wick:

It is noted that during the recent past errors were detected in a number of outgoing communications which you approved while discharging your assigned duties. It is apparent that your failure to detect these errors was due to carelessness on your part.

In the future, you will be expected to be more meticulous in performing your duties so that it will not again be necessary to criticize you in this manner.

Very truly yours,

Re: Robert E. Wick,
2219 North Military Road,
Arlington, Virginia.

Dear Sir:

102
In the name of the person listed above, believed to be in your employ, we have the following unpaid tax bills due Arlington County, Virginia:

State Income (1960 earnings) \$105.00 plus interest to date of payment

The Staff Adviser on Personnel to the President, who was also Chairman of the United States Civil Service Commission, in a communication from the White House, dated January 13, 1955, to the Heads of Executive Departments and Agencies, outlined the policy of the administration with respect to the payment of taxes by federal employees. We believe that if this policy were brought to the attention of your employee, it would assist us greatly in effecting this collection, as our efforts to date have been unsuccessful.

Any assistance you render to enable us to effect this collection will be greatly appreciated.

Dear Wick:

It is indeed a pleasure to commend you for your splendid service in connection with the return of nearly \$17,000 to an elderly couple from whom the money had been stolen while they were in Europe. You and an associate handled every detail for the coverage of this event in a most effective and efficient manner. The results of your efforts will certainly enhance the prestige of the Bureau and I want you to know I am most appreciative.

MR. MOHR:

Robert E. D.

Inspector Wick's 84-year-old father, Peter Wick from South Dakota, is visiting him at the present time. Mr. Wick, Sr., is a retired lumber manufacturer and he is very proud of his son's employment with the FBI and is most anxious to see our facilities. He has also indicated that it would be a very proud moment for him if he could briefly shake hands with the Director during his visit to FBI Headquarters.

The elder Mr. Wick will be visiting FBI Headquarters on Tuesday, 10-31-61. In the event the Director could shake hands with him I know that both Mr. Wick and his son, Inspector Wick, would deeply appreciate it. The Director might desire to have a picture taken at this moment. This would indeed be a very nice souvenir for Mr. Wick.

RESPECTFULLY,

MR. MOHR:

Re: ET AL

ITWI
PITTSBURGH DIVISION
PRESS MATTER

Robert E. Wick

I wanted to bring to the Director's attention a press matter which I believe has been handled in an excellent manner.

There is attached a considerable number of press clippings including the tremendous headlines received by the FBI in the states of West Virginia and Pennsylvania. We have also received press clippings from Ohio and surrounding states crediting the FBI in this case. The extensive TV and radio coverage was far above average.

I talked initially with the SAC, Pittsburgh, and issued instructions as to how this matter should be handled. I think, however, that over and above the routine instructions that were issued, the Director might desire to commend several of the men in the Crime Records Division who stuck with this case throughout, *Edward* issuing instructions, talking to newspapers and issuing specific details as to what would prompt additional considerable publicity in this matter. Inspectors Wick and Kemper contributed a great deal to this matter as did SAs Thomas F. Mitchell and John C. F. Morris.

It is believed also that SAC B. C. Brown, who followed instructions explicitly and who did a good job in obtaining considerable publicity, should also be commended.

Respectfully,

C. D. DeLoach

I want to commend you for your excellent work relative to the investigation of the Interstate Transportation in Aid of Racketeering-Gambling case involving [redacted] and others.

The coverage which this unusual case received by the news media was indeed noteworthy and the exemplary manner in which you handled your responsibilities in this regard contributed materially to this phase of the entire operation. Neurosurgical Consultation

10 October 1961

51 year old FBI man, complaining of dull aching and burning sensation along the posterior thigh, lateral calf and foot, big toe and instep. This had been bothering him for the last 6 months. He has had intermittent minor low back pain several years ago. He also experiences shooting pain into his left leg. There has been no weakness noted. No bowel or bladder involvement, his libido has decreased somewhat. His work requires a lot of desk work.

Examination: Cranial nerves intact. DTR are equal and intact, plantars flexor. Sensation to pin prick is diminished over the inside and the sole of the left foot and the big toe. Proprioception is intact. No motor weakness. Gait normal. Walks on his heels fairly well without to much discomfort. There is no limitation on flexion of the spine in either direction and without pain. No local tenderness. No list or paraspinal muscle spasms. SLR to 80° on both sides.

Recommendation: There is definitely some nerve root irritation probly from a bulging intervertebral disc. In view of the minor symptoms and the lack of objective findings nothing more than supportive measures are necessary. I gave him some exercises to perform to strengthen his back muscles and asked him to wear his brace during working hours. I made an appointment to see him in 3 months to re-evaluate him.

Thank you.

DEATH OF FATHER

Mr. Wick called me at 5:30 p. m. Sunday afternoon, 2-18-62, to advise he had received information that his father, 84 years of age, had dropped dead. I told Mr. Wick the Director would want him to take off as much time as necessary and for him not to be concerned about the affairs of the Bureau.

After putting Mr. Wick on a plane, I called the SAC at Minneapolis and told him to have a \$15 arrangement of flowers delivered to the Hermanson Funeral Home, Dell Rapids, South Dakota, with a card thereon from "J. Edgar Hoover and Associates." I also told SAC Williams, Minneapolis, of Mr. Wick's travel arrangements and to be of any possible assistance to him.

Funeral arrangements will be handled by the Hermanson Funeral Home and burial will be at 3:00 p. m., Wednesday afternoon, 2-21-62. Mr. Wick will probably be gone a week or a week and a half from the office inasmuch as it will be necessary for him to assist in settling his father's estate.

ACTION:

The Director may desire to send the attached letter to Mr. Wick at Dell Rapids, South Dakota.

The death of a loved one always comes as a shock to any of us. I am certain this is true in your case inasmuch as I know you deeply loved and respected your father. There is attached an outstanding performance rating for this year for Inspector Robert E. Wick, Number One Man in my Division. By his fervent devotion to duty, consistent and willing personal sacrifices, and particularly by the voluminous concrete results produced in connection with efficient operations of this Division and in the interest of the Bureau, I feel that he is by all means "outstanding."

As noted in the narrative comments concerning Wick, he handles an abundance of varied assignments, including almost hour-to-hour contact with press representatives. In addition, he reviews a large amount of the great volume of signature mail which emanates from this Division. As a result of this combination of varied assignments and heavy mail, during the rating period he was charged with ten reviewing errors and accordingly received a letter of censure dated 8-28-61. I do not feel that this in any way detracts from his performance rating inasmuch as he is always taking onto himself more things to do and frequently reviews additional correspondence whenever an extremely heavy flow of mail occurs. It is felt that this item is merely a consequence of the fact that Wick is a "doer" and never shrinks from performing as much work as he can.

RECOMMENDATION:

That this memorandum be referred to the Administrative Division for appropriate consideration.

- "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.

EMPLOYEE'S INITIALS

ROBERT E. WICK
Inspector, GS-17
EOD 7-20-42
Number One Man
Crime Records Division

Inspector Robert E. Wick, in his capacity as Number One Man to the Assistant Director in charge of the Crime Records Division, has earned an "Outstanding" performance rating by virtue of the superior manner in which he has fulfilled his responsibilities during the period from April 1, 1961, to March 31, 1962.

When the responsibilities of the Assistant Director of this Division require him to be absent, Inspector Wick, as his substitute, has always responded with a ready willingness to accept individual responsibility, excellent judgment in making decisions, and a fine talent for discharging a large volume of tasks in a minimum amount of time. His mental agility and physical stamina are clearly illustrated by his constant ability to analyze complex problems and make grave decisions even after many extra hours of work.

Inspector Wick has as one of his primary duties practically continuous liaison with news media in connection with information the FBI is responsible for disseminating to the public. He has a particular flare for developing material and data which will emphatically portray the Bureau to the public to obtain favorable response to the FBI. In resolving delicate problems in this field and in maintaining the FBI's policy and position at all times, he has amply demonstrated a splendid combination of forcefulness, finesse, and executive ability. His reputation for composure in a crisis and his cool judgment and sound direction under extreme tension are well established.

Completely oblivious to personal recognition and selfless concerning his time and efforts in the interest of the Bureau, he is a splendid example in attitude for his associates. He consistently averages more than three hours per day overtime and in connection with his duties in liaison with news media, he invariably receives an abundance of telephonic inquiries at his home during the night. He enjoys a wide reputation for congeniality and cooperation at all times, under all circumstances, at any hour of the day or night. He has sound knowledge and personal interest in the entire operations of his Division, and he is always ready to volunteer his services or his skill for the benefit of the Bureau and its activities. He not only practically applies his knowledge and experience in his everyday work, but constantly utilizes this storehouse of information for the benefit and guidance of subordinates and associates.

Inspector Wick, during more than 19 years of service, has consistently dedicated his efforts to increasing his personal contributions to the FBI. During the past year, his devotion to duty, concrete results provided, fervent enthusiasm, and sheer determination to enhance the stature and public image of the FBI have certainly been in the best tradition of the Bureau and merit for him an "Outstanding" performance rating.

Inspector Wick is the Number One Man in the Crime Records Division and he presents a clean-cut, neat appearance. His impression on outside contacts is excellent. He is particularly adept in handling press inquiries and news releases. He requires a minimum of supervision and does his work with a great deal of force and determination. Much of the work performed by Mr. Wick in the Front Office is on a pressure basis and he is able to work under a great deal of pressure. Since the last inspection, he has received eight letters of commendation and one letter of censure. This letter of censure dealt with nonsubstantive errors in mail reviewed by him. He was afforded an outstanding efficiency rating on April 20, 1961, and another outstanding efficiency rating for the last rating period.

Memo to Mr. Mohr
Re: Inspection - Crime Records Division

Personnel Matters - Very Good. (Last inspection - Good) Personnel deemed adequate. Division making efforts to absorb work load when employees separated. For past 15 months, 114 letters of censure received, or average of 7.6 per month as compared to average of 9.1 at time of last inspection. During same period, 218 letters of commendation and 24 incentive awards received by Division personnel. Morale very good and no SAs overweight, unavailable or on limited duty. Check on voluntary overtime determined it to be necessary, productive, and equitably shared. Separate recommendation made that clerical dictators handle greater volume of noncomplicated correspondence.

Contacts - Excellent. (Last inspection - Excellent) Excellent liaison on Capitol Hill, with other Government agencies and with industry; particularly effective in radio, TV, and other news media. Mr. DeLoach influential in Veterans organizations. Index of contacts of Bureau officials being purged to make it more useful.

RECOMMENDATIONS:

(1) Assistant Director Cartha D. DeLoach, GS-18 @ \$18,500, veteran, not on probation. DeLoach is dedicated, aggressive, and alert to his responsibilities. He is excellent on contacts, provides strong leadership for his Division, and has respect and confidence of employees. He seizes every opportunity to promote Bureau's interests. Rated "outstanding" in 1961 and 1962 annual performance ratings. Letter attached for approval will summarize inspection findings.

(2) Inspector Robert E. Wick, No. 1 Man, GS-17 @ \$16,790, nonveteran, not on probation. Wick is intelligent, loyal, and well qualified by experience for this position. He has excellent contacts with newspapers and other media, handles great volume of work under pressure, and is doing an excellent job.

Memo to Mr. Mohr
Re: Inspection - Crime Records Division

DETAILS

PHYSICAL CONDITION AND MAINTENANCE. VERY GOOD

In August, 1961, Crime Research and Correspondence and Tours Sections obtained additional space which has alleviated crowded conditions found during last inspection. Current space well maintained and adequate. Uniform Crime Reporting Section housed in Old Post Office Building in space well maintained but old and un-attractive. Housekeeping delinquencies corrected or ordered and request for most repairs and painting made prior to inspection. No security delinquencies noted.

SPECIFIC DIVISION OPERATIONS. VERY GOOD

Contributors to the Uniform Crime Reporting program are approximately 8,500, an all-time high and cases opened to contact police departments in the field also at an all-time high. Increased work load attributable to expansion of existing programs, affording more attention to determining validity of data furnished by contributors and initiating new programs which attest to forward thinking in Uniform Crime Reporting Section.

During 1961, Correspondence and Tours Section had 419,360 persons tour our facilities for an all-time high and an increase of 29,192 persons over 1960. As of May 18, 1962, 161,664 persons had toured Bureau facilities in 1962, representing an increase of 11,814 over same period in 1961. During March, 1962, an exhibit on communism was installed on the tour route. During the past year an average of 2,950 outgoing letters were handled per month, or 140 per work day. Correspondence is being handled efficiently, with substantial improvements effected. Inspector has recommended changes to further streamline handling of correspondence - separate memorandum submitted.

Division personnel have cooperated with Warner Brothers in making the television spectacular "FBI--Code 98". Division also actively participates in "Monitor" radio program and in preparation of other television and radio scripts. In addition, in the past fifteen months 190 articles and 192 statements under the Director's by-line were prepared for such publications as "Nation's Business", "U. S. News and World Report", "National Geographic" and many prominent industrial publications. Division personnel made 398 speeches during the period 2/15/61 through 5/31/62, compared with 244 in 1960. These operations have resulted in excellent publicity for the Bureau.

Memo to Mr. Mohr
Re: Inspection - Crime Records Division

ADMINISTRATIVE OPERATIONS. VERY GOOD

Division has 3 Sections, with appropriate Unit breakdowns, and is well organized to handle its responsibilities. Supervisory staff is adequate and administrative responsibilities equitably distributed among supervisory personnel. Division and Section front offices are giving proper leadership and affording close supervision to operations. Procedures for assignment of work and follow-up to insure timely completion are functioning smoothly. Inspector recommended by separate memorandum that Correspondence Unit be divided into two units, a "Special" Unit staffed by Agent personnel and a "Nonspecial" Unit staffed by clerical dictators. Creation of a new Unit would not mean any increase in personnel or salaries but would tighten supervision.

Stenographic production of 2.74 and 2.5 pages per hour, respectively, for Crime Research Section and Correspondence and Tours Section is below the Seat of Government average of 2.86 pages per hour. Typist production 2.14 pages per hour in Crime Research Section and 4.5 in Correspondence and Tours Section - SOG average 2.69. Low typing average in Crime Research Section is due to three employees with less than 90 days' service. Retyping in Correspondence and Tours Section averaged 12.69% - SOG average 9.70%. Production of stenographers and typists to be periodically checked and efforts made to keep retyping to a minimum. Odd-hour shifts reviewed and found justified. Crime Records leads all SOG Divisions in number of suggestions adopted by Bureau in first three quarters of current fiscal year.

PERSONNEL MATTERS. VERY GOOD

As of 6/1/62, 36 Agents and 136 non-Agent employees assigned this Division. Personnel deemed adequate; however, Uniform Crime Reporting Section had 3 resignations and one maternity leave pending and requested 3 replacements. By separate memorandum, Inspector recommended, on 90-day trial basis only, one replacement. Crime Research Section had 2 resignations pending and by separate memorandum Inspector recommended, and it was approved, that only one position be filled for a 90-day trial period. Division instructed to make every effort to absorb work load, and not request additional personnel, when employees leave. During inspection, Division voluntarily absorbed work load of 3 additional clerical employees under resignation in the Correspondence and Tours Section.

Voluntary overtime for 3-month period (2/1/62 - 4/30/62) averaged 2:31. Check determined it to be necessary, productive, and equitably shared. No Agents overweight, unavailable, or on limited duty. Based on interviews with Division personnel, morale appears very good.

Memo to Mr. Mohr
Re: Inspection - Crime Records Division

Division personnel during past 15 months received 114 letters of censure, or an average of 7.6 per month which shows improvement since last inspection when the average was 9.1 per month. During this same 15-month period, 218 letters of commendation and 24 incentive awards were received by personnel in this Division.

Inspector recommended in separate memorandum that clerical dictators handle a greater volume of noncomplicated correspondence, releasing Agents for more important assignments.

CONTACTS. EXCELLENT

Division has excellent liaison and contacts on Capitol Hill, with leaders of important Government agencies, and in industry. Particularly effective contacts maintained in radio, television, motion pictures, and other news media. Mr. DeLoach active and influential in Veterans organizations. Steps taken to purge index of contacts developed by Bureau officials to make index more useful.

He has been assigned to the New Haven, Newark, Washington Field, St. Paul and Minneapolis Offices. He served as Resident Agent in Camden, New Jersey, from 6-14-43 to 3-12-45. He was first assigned to the Records and Communications Division on 1-10-46 and was again assigned to that division on 11-27-59. On 3-31-62 Mr. DeLoach rated him OUTSTANDING and in connection with this rating he was awarded an INCENTIVE AWARD on 5-11-62 in the amount of \$400.00 in recognition of his superior performance.

During the past year he has been COMMENDED on four occasions, the latest one being on 2-5-62 for his excellent work relative to the investigation of the Interstate Transportation in Aid of Racketeering-Gambling case involving [redacted] and others. During this same period he has been CENSURED on one occasion, it being on 8-28-61 inasmuch as it was noted that during the recent past errors were detected in a number of outgoing communications which he approved while discharging his assigned duties.

The Director last saw him on 10-30-61 when he and his 84 year old father, Peter Wick, from South Dakota, saw the Director when the elder Mr. Wick was visiting the FBI Headquarters. By letter dated 10-31-61 to Mr. Peter Wick the Director stated how pleased he (the Director) was to have the opportunity to meet him. The Director also enclosed an autographed photograph taken in the Director's office this date as a memento of the occasion. SUBJECT:

MISSING PERSONS

Robert E. Wick

Attached is a teletype from the Richmond Office with recommendations for incentive awards and commendation for Agents who participated in the successful search for the two missing girls. General Investigative Division has attached an addendum making further recommendations. I agree with these recommendations as set forth.

In addition, I recommend a letter of commendation to Assistant Director *Alex* Rosen. He personally issued instructions to the field in this matter, instructed that ASAC Morgan come up from Richmond to Alexandria to take personal charge of the case, and issued instructions to ASAC Morgan that regardless of prior searches in the neighborhood Agents should search the buildings in the neighborhood of the children's homes.

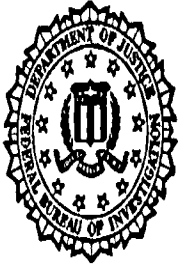

Immediately upon receipt of word that the little girls had been located, Mr. DeLoach was advised in order that the press could be so informed at once before such information was released from other sources. From my personal observation, Mr. DeLoach took hold of this at once and contacted the press with the resultant extremely favorable publicity, giving proper credit to the Bureau. In addition, he dispatched Inspector Wick to Alexandria to assist in handling the press and photographers at the scene in order to assure a smooth operation. It is my understanding that Mr. Wick arranged that the photograph of the Agents and the little girls be taken by the press, thus again placing the proper emphasis on the Bureau's part in this matter. I therefore, recommend, that Assistant Director DeLoach and Inspector Wick be commended.

Captioned seven-year-old girls were reported missing from their homes in Alexandria, Virginia, during the afternoon of August 19, 1962. Since they were not located within 24 hours and were believed to have been kidnaped, a full field kidnaping investigation was initiated by the Bureau on August 20, 1962, with all available agent personnel from the Richmond Office and 65 agents from the Washington Field Office ordered to the scene under the direction of ASAC Harry J. Morgan, Richmond Office. Although thorough and wide-spread searches had allegedly been done of entire area by large numbers of local police, military personnel, neighbors and apartment managers, our agents at specific instruction of Assistant Director Rosen organized and instituted a systematic re-search beginning with all vacant apartments in the large Van Dorn and Brookville apartment developments. This approach resulted in locating the girls on August 21, 1962, locked in the bathroom of a vacant apartment in a building within 50 yards of their homes.

b6

The successful results achieved in this case brought forth nationwide and unusually high praise from press, radio, television and citizenry and certainly added to the Bureau's prestige, thus the responsible personnel are deserving of special recognition.

ASAC Morgan who directed activities at the scene in absence of SAC recommended incentive awards for SAs [redacted] and [redacted] for their efforts in actually locating the children and for Alternate Senior Resident Agent Jesse C. Hall, Jr., who handled case assignment, liaison with local police and coordinated investigation prior to ASAC's arrival; commendation for 12 other agents who provided most assistance during investigation and search; and general letter to SAC, WFO, commending through him WFO personnel who provided valuable assistance.

Mr. Rosen recommended incentive award for ASAC Morgan in recognition of outstanding personal supervision and coordination at the scene; individual commendation for ASAC Dillard W. Howell for his splendid personal supervision of investigation in Washington and liaison with the Metropolitan Police; and commendations for Bureau Supervisors J. Allison Conley and J. Donald Huppert who supervised and coordinated activities at the Seat of Government.

Memorandum to Mr. Callahan
Re: Incentive Award and Commendation Matter

Mr. Belmont concurred with the foregoing and in addition recommended commendation for Mr. Rosen for personally instructing that ASAC Morgan proceed to Alexandria to take charge of investigation and to search all neighborhood buildings regardless of what had allegedly been done previously. Mr. Belmont also recommended commendation for Assistant Director DeLoach and Inspector Robert E. Wick for their particularly effective handling of the press which resulted in the extremely favorable publicity afforded the Bureau. Mr. DeLoach recommended commendations for Bureau Supervisors Harold P. Leinbaugh and Donald G. Hanning for invaluable assistance in handling press inquiries and dissemination of information to appropriate sources.

It is agreed that appropriate recognition should be given to the above-mentioned key personnel; however, it is felt that the 12 individual commendations recommended for Richmond agents who participated at the scene should be commended along with other Richmond agents who participated through a general letter to SAC since this was a team effort.

SUBJECT: ERROR IN LETTER TO
GEORGE SOKOLSKY, 10-4-62*Robert E. Wick*

A letter dated 10-4-62 for the Director's signature to George Sokolsky was prepared in the Correspondence and Tours Section. The letter commended Mr. Sokolsky for his column entitled "Law Enforcement" in the October 3 issue of the Washington Post wherein he made favorable remarks concerning Mr. Hoover.

The Director noted that the Journal-American column by Sokolsky of the same date contained considerably more commendatory statements than the Washington Post version.

The letter was sent back to my office so that we could retype the letter to Sokolsky making reference to his column in the Journal-American rather than the Washington Post of the same date. This was done in my office to save time since the letter was of an expedite nature. In instructing the letter be retyped here, Wick, who handled the letter in my office, failed to instruct that the heading "Law Enforcement" for the column which appeared in the Post be changed to read "Investigation Can Bedevil Innocent" as the column was headed in the Journal-American.

RECOMMENDATION:

This is an error on the part of Wick and he should be censured.

In connection with the letters to the "Chicago Daily News," the "Miami Herald," the "Charlotte News" and the "Washington Post," the following statement was made: "It is indeed unfortunate that Mr. Freudenheim did not contact us prior to the wide distribution of this story, as we would have been able to furnish true facts concerning [Redacted] This statement is in error. Freudenheim did contact our New York Office and talked to ASAC Winterrowd prior to writing his story. *DeLoach* ASAC Winterrowd told Freudenheim in connection with the [Redacted] inquiry that the New York Office had "no comment" and suggested that he contact FBI Headquarters in Washington, D. C. Freudenheim did not contact FBI Headquarters. He apparently went on and wrote his story intentionally smearing the Director and the FBI without making any further checks as had been suggested.

None of the letters in question have gone out. They have all been retrieved. Nevertheless the statement that Freudenheim made no contact with the FBI is in error inasmuch as he did contact the New York Office and talked with ASAC Winterrowd.

I am at fault in this matter as is Inspector Wick. ASAC Winterrowd, although he has not yet dictated a memorandum for the file, does have a note on his desk indicating that Freudenheim called him and Winterrowd, in turn, called the Crime Records Division and talked with Inspector Wick reporting Freudenheim's call. Due to the tremendous volume of calls received all day Thursday, 10-18-62, Mr. Wick did not have sufficient time to dictate on ASAC Winterrowd's call concerning Freudenheim which was received Thursday night. In reviewing the correspondence in question, Mr. Wick had forgotten about the Freudenheim call. I also was at fault because (1) the operations of this Division are my responsibility and (2) before dictating the letters for Mr. Tolson's signature, I should have personally checked with the New York Office with respect as to whether a call had actually been received from Freudenheim or not. The letters in question are believed to be absolutely accurate after omitting the above quoted statement pertaining to Freudenheim making contact with the FBI.

I would like to recommend consideration for commendation be given to Inspectors Robert E. Wick and Edward C. These men worked through the night of 11-16-62 until 4:00 a. m. Saturday morning, 11-17-62, when they were sent home for a little sleep due to the inactivity in captioned matter. They returned promptly at 7:30 a. m. Saturday and continued working until much later on in the day.

Special Agents George William Gunn, Thomas E. Mitchell and Donald G. Hanning should additionally receive consideration inasmuch as they spent almost the same amount of time in handling similar duties and responsibilities in assisting me in the Front Office of our Division.

Four young ladies additionally deserve commendation; Mrs. Geraldine E. Goodin worked until 4:00 a. m. 11-17-62, as did Miss Donna J. Martz whom we borrowed temporarily from the Special Investigative Division. Mrs. E. Jeanette Rader and Miss Shirley A. Kowatch additionally put in a great deal of overtime voluntarily reporting to the Front Office on Saturday morning at approximately 7:30 a. m. and working on throughout the day until stenographic duties were completed in the handling of this case.

The handling of the press in this matter has been considered to be above average and, as a result, the FBI has received considerable publicity. The excellent teamwork by the above-mentioned personnel certainly is responsible for the results achieved.

EMPLOYEE'S INITIALS

ROBERT E. WICK
Inspector, GS-17
EOD 7-20-42
Number One Man
Crime Records Division

For the superior performance in the discharge of his varied and major assignments during the period from April 1, 1962, to March 31, 1963, Inspector Robert E. Wick, in his position as Number One Man in the Front Office of the Crime Records Division has merited an "Outstanding" performance rating.

One of the primary responsibilities of Inspector Wick is to serve as a substitute for the Assistant Director in Charge of this Division when the latter's duties require him to be absent from his office. In this capacity, his propensity for handling a large volume and variety of work in a minimum of time, his broad knowledge of Bureau operations, keen judgment and talent for taking decisive and effective action on the spot have proved invaluable. He is most qualified for the innumerable liaison assignments in the Division Front Office by reason of his affable personality, ardent enthusiasm, outstanding personal appearance, and acute understanding of objectives of the Bureau.

In fulfilling his principal duty in connection with meeting the FBI's obligation to disseminate pertinent information to the public, he maintains almost hour-to-hour contact with news media representatives seeking such data. In this respect, he has achieved an outstanding reputation and record in protecting and promoting the best interests of the Bureau by exercising diligence, executive ability, aggressiveness and ingenuity. In the urgent assignment of press releases, where stamina under stress as well as speed of action and thought are absolutely essential, he displays brilliant foresight and superior technical competence, for which he was specifically commended by letters dated August 28, 1962, October 2, 1962, and November 20, 1962.

Inspector Wick, in addition to the skill demonstrated in his own work, contributes immeasurably to the esprit de corps and over-all efficiency of this Division and to the Bureau by his example and his constant willingness to be of assistance to his fellow workers. He affords untiring and devoted service to his superiors and dynamic leadership for his subordinates.

On Inspector Wick's Twentieth Anniversary in the FBI on July 20, 1962, the Director stated, "I want to take this occasion to express my personal appreciation for your devotion to the ideals for which the Bureau stands." The ardent dedication to duty, the personal sacrifices and the contributions to the success of the FBI by Mr. Wick during the past year are illustrative of his career attitude and typical of the highest standards of an "Outstanding" Bureau representative.

There is attached the annual performance rating for this year for Inspector Robert E. Wick of my Front Office, giving him an "Outstanding" rating. On the basis of his loyalty, dedication to duty, contributions of a material nature to the successful operations of this Division and to the Bureau as a whole, he has certainly earned this rating.

In his everyday duties he handles almost continuously contacts with press and news media on expedite and delicate matters, and at the same time reviews and approves an abundance of correspondence and substitutes on my desk when my assignments necessitate my absence. In addition, due to his over-all knowledge in the field of information dissemination, he is frequently occupied with furnishing guidance in this category to Bureau associates both at the Seat of Government and in the field. As a result of this heavy and varied workload, during the rating period he received two letters of censure in connection with correspondence matters dated October 17, 1962, and October 26, 1962. I feel that this is a consequence of his constant zeal to do as much as he physically can whenever emergency situations arise and does not detract from his proved outstanding value during the past year.

RECOMMENDATION:

That Inspector Robert E. Wick of my Front Office be favorably considered for an "Outstanding" performance rating.

WASHINGTON REPORT

BY FULTON LEWIS, JR.

COPYRIGHT, 1963, KING FEATURES SYNDICATE, INC.

WASHINGTON, April 17 -- If little boys no longer dream of growing up and becoming policemen, it is understandable. Consider these shocking statistics:

Eight out of every 100 law enforcement officers are annually assaulted in line of duty. More than 50 officers are killed. It is a "deplorable situation," says FBI Chief J. Edgar Hoover, who frequently calls attention to the abuse showered upon city, county and state police officers.

A recent incident in Brooklyn, N. Y., however, shows that these officers are not the only targets of hardened criminals.

Minutes before 10 a.m. on April 3, FBI agent John P. Foley stood on Fourth Street just off Fort Hamilton Parkway in Brooklyn. He was on official assignment.

Foley, a veteran of 15 years with the FBI and father of a daughter, was stationed near the Immaculate Heart of Mary Roman Catholic Church where funeral services were scheduled for Carmello Lombardozzi, father of Carmine Lombardozzi, reputed underworld chieftain, and delegate to the famed Apalachin underworld conference of November 1957.

Without warning, agent Foley was struck from behind and pummeled to the ground by at least four persons. His assailants fled into the church.

FBI agents rushed to the scene, arresting John J. Lombardozzi, Carmine's brother. Agent Foley was taken to the hospital with a fractured skull and internal injuries.

Charged with assaulting a Federal officer, the four were taken before U. S. Commissioner Max Schiffman, who set bond at \$100,000 each, and commented:

"The defendants' obvious good physical condition is indicative of the forbearance of the FBI under such an unprovoked attack and is further indicative of the excellence of the training and discipline of FBI agents."

ENCLOSURE

The facts bear him out. Since 1934, when FBI agents were first authorized to carry firearms and make arrests, they have captured thousands of criminals, many of whom had gained infamy for their exploits.

On but 37 occasions have FBI agents been compelled by resistance to kill the criminal they sought. One such "prize" was "Pretty Boy" Floyd, a participant in the Kansas City massacre which took the lives of three policemen and one FBI agent. Another criminal to meet death was Lester Joseph Gillis, better known as "Baby Face" Nelson, killer of three FBI agents.

xx agents.

A total of 14 FBI agents have been killed by criminals. The last agent to be slain was Richard Horan, who was killed in a gun battle with an accused murderer at Suffield, Conn., April 18, 1957.

Numerous other agents have narrowly escaped death while performing their duties to protect Americans from the criminal and subversive. Examples:

* A Little Rock agent was attacked from behind as he walked along a lonely road en route to work. Beaten with brass knuckles, he suffered numerous facial wounds and the loss of several teeth.

* A Chicago agent was jumped by two men as he entered an apartment building to conduct an investigation. He was brutally beaten and robbed.

* Philadelphia agents entered a small apartment to capture a fugitive who a few days earlier had shot and wounded a policeman in another state. The criminal lunged for a gun. An agent grabbed him and the two fell to the floor of the darkened room. The fugitive managed to fire two shots as he and the agent struggled. The first shot struck the agent in his right thigh; the second pierced the criminal's own head, causing instant death.

* A Portland agent who tried to stop a bank holdup was mowed down by machine-gun bullets fired by the escaping robber. He was wounded in the right hand and arm and both sides. Miraculously, he was not killed.

ASSISTANT DIRECTOR C. D. DELOACH:

Inspector Wick is the Number One Man in my Front Office and on occasions when my responsibilities necessitate my absence, he substitutes on my desk. Well versed in Bureau policy and procedures, possessing keen analytical judgment, and exercising self-assurance based on experience, he performs a wide variety of duties and a far above average workload in an outstanding manner at all times. He has a personal flair and talent for handling press inquiries and the expedite and urgent matters involved in news releases. He has a prodigious fund of Bureau information and a selfless attitude in the interest of the Bureau and his associates, and as a result, on frequent occasions, he is called upon for guidance by fellow workers. He has a radiant congeniality and excellent personal appearance and contributes immeasurably to the success of the Bureau in his liaison assignments with representatives of news media, other Government agencies, etc. Since the last inspection, he has received three letters of commendation and two letters of censure in connection with correspondence matters which primarily resulted from his constant willingness to accept additional work and to handle a far above average volume. It is noted that on 3-31-63 he was afforded an "Outstanding" efficiency rating.

OUTSTANDING ANNUAL PERFORMANCE RATINGS

There are attached for approval the annual reports for Messrs. Stanley, Malley, Wick and Waikart in which their services have been rated Outstanding for the period 4-1-62 through 3-31-63. Mr. Belmont has signed the ratings of Messrs. Stanley and Malley and I have signed the ratings of Messrs. Wick and Waikart as Reviewing Official.

Messrs. Stanley, Malley and Wick were rated Outstanding on their 1962 annual performance ratings. No severe administrative action has been taken against these men with the exception of Mr. Malley who was censured and placed on probation 7-11-62 for deficiencies in handling of Billie Sol Estes case; however, in view of the successful conclusion of this case and other meaningful accomplishments of the General Investigative Division the Outstanding rating for Mr. Malley appears appropriate.

In the event you approve these ratings, I respectfully request that the Director sign both the original and the copy of each as Approving Official. Upon receipt of all ratings from the Seat of Government and the field, these and other Outstanding ratings will be transmitted to the Department for approval by the Efficiency Awards Committee. Messrs. Stanley, Malley, Wick and Waikart will then be entitled to cash incentive awards in the amount of \$400 as has been approved in the past for those below the level of Assistant Director who are in Grade GS 16 or above. Messrs. Stanley, Malley and Wick are in Grade GS 17 and Mr. Waikart is in Grade GS 16.

RECOMMENDATION:

That the Director, as Approving Official, sign the original and copy of the attached Outstanding ratings for Messrs. Stanley, Malley, Wick and Waikart and upon approval by the Department they be furnished copies of their ratings and approved for incentive awards of \$400.

LEFT FOOT IN MULTIPLE PROJECTIONS: There are irregular arthritic spurs projecting from the surfaces of the first metatarsal, distally, the proximal phalanx of the first digit, both proximally and distally, and the distal phalanx of the first digit, proximally, consistent with hypertrophic change, but there is no evidence to suggest ~~RAIOTX~~ lucent defects which would be characteristic of gouty arthritis. SUBJECT: [REDACTED]

MISCELLANEOUS INFORMATION CONCERNING
BUREAU FILE 62-109096

Robert E. Wick

The Baltimore Office by Airtel dated 12-4-63 in captioned matter advised that [REDACTED] aged about 27, is a discharged serviceman who has been carrying on a running feud with the Veterans Administration concerning hospitalization. In October, 1963, he was confined at the Spring Grove Hospital, Catonsville, Maryland, a mental institution.

At 6:45 a.m., 12-4-63, [REDACTED] phoned the Baltimore Office and asked whether the Office of Congressman James C. Healey (D. - New York) would be open in Washington since he wanted to come in to see the Congressman, whose district office is in the Bronx, the home town of [REDACTED]

[REDACTED] had first appeared at the Baltimore Office on October 7, 1963, at which time he talked about defecting to Russia, talked about fancy benefits the Veterans Administration owed him, etc. He became agitated recounting his problems, he beat the desk, struck his head forcefully and said that when he has a tantrum of this type he desires to "hit people in the face." He admitted he drinks considerably.

On 12-4-63, [REDACTED] mentioned to the Baltimore Office he planned to come to Washington and see Miss [REDACTED] the Administrative Assistant to Representative Healey.

ACTION TAKEN:

The Baltimore Office, prior to sending the Airtel, telephoned my office and talked to Wick the morning of 12-4-63 giving Wick the above information. Wick in turn called the Congressman's Office to alert Miss [REDACTED] and suggest that since she had this information and because the FBI could not do guard duty, she might wish to notify the Capitol Police who could advise her what action to take in the event [REDACTED] showed up at Congressman Healey's Office 12-4-63. Miss [REDACTED] told Wick she had had a great deal of trouble with [REDACTED] He has been to the Congressman's Office

several times, the girls there are afraid of him and he is a very sick man, a mental case and she just did not know what to do. She said she would call the Capitol Police.

[redacted] did show up on 12-4-63 at Congressman Healey's Office, the Capitol Police took him into custody after Miss [redacted] explained to Mr. [redacted] that until such time as the Veterans Hospital could accept him it might be well for him to go with the police who could see that he was taken care of at D. C. General Hospital. Miss [redacted] subsequently advised Wick that he was agreeable to going with the policemen.

[redacted] of late, has been calling Wick and stating that he was responsible for having him committed to St. Elizabeth's Hospital inasmuch as the police officer "wrote something on a piece of paper about Wick saying I threatened Miss [redacted]"

b6

DEVELOPMENT:

At 6:10 p. m., 1-22-64, [redacted] telephoned the Bureau and asked for Wick. Wick talked with him. He said he had escaped from St. Elizabeth's shortly after 5:00 p. m. yesterday, had decided to defect to Russia and intended to talk to Drew Pearson and the Washington Post about the bad treatment the U. S. Government and particularly the Veterans Administration had given him. He said he has a withered right hand and arm, it is in a cast and something has to be done in his case. It was possible to keep [redacted] on the line from 6:10 p. m. to 6:40 p. m. during which time Wick elicited from him the fact that he was calling from the Gulf Station located at 3011 Nichols Avenue, Southeast (telephone 561-9621). He was dressed in a fatigue-like light jacket and was wearing a white shirt.

Edward
Inspector Kemper, on another line, called St. Elizabeth's, talked with a Mr. [redacted] on duty who advised that in truth [redacted] had escaped, was not present for roll call at supper and they were looking for him. Arrangements were then made by Kemper, through [redacted], to have the Metropolitan police pick up [redacted] at the filling station. This was done. St. Elizabeth's Hospital advised my office this morning that [redacted] is now confined more securely, all privileges have been taken away and a closer guard will be maintained over him.

ACTION: For record purposes.

**ROBERT E. WICK
NUMBER ONE MAN - INSPECTOR
CRIME RECORDS DIVISION**

Inspector Wick, as Number One Man in the Front Office of the Crime Records Division, has continued his sustained superior performance during the past year and has earned the rating of Outstanding for the period April 1, 1963, to March 31, 1964.

Completely devoted and loyal to the best interests of the Bureau, Mr. Wick is at all times striving to enhance the prestige of the FBI. As the obligations of his division increased tremendously, he welcomed new challenges and has remained ever-willing to offer encouragement and advice to his associates. Constantly faced with numerous problems of a complex nature, Mr. Wick has demonstrated his vast understanding of the operations of our organization in quickly resolving these situations.

Extremely well versed in FBI policies and procedures, possessing keen analytical judgment and exercising self-assurance based on varied experience, Mr. Wick handled every aspect of his responsibilities in a manner which inspires confidence. His radiant congeniality and commanding appearance combined with an unusual flair and talent for answering press inquiries make him particularly effective in dealing with representatives of various news media. He is intensely enthusiastic and dedicated and has all the necessary attributes of a splendid Bureau executive.

A career man with almost twenty-two years of service, Inspector Wick has been invaluable to me, especially with his assistance in public relations matters, and has ably substituted as head of the Division when other duties have required my absence from the city. His performance has always been in the finest traditions of the FBI and certainly justifies this Outstanding rating.

ROBERT E. WICK
Inspector, GS-17
EOD 7-20-42
Number One Man
Crime Records Division

For the superior fashion in which he has fulfilled the responsibilities and major assignments during the period from April 1, 1964, to March 31, 1965, in his position as Number One Man in the Crime Records Division, Inspector Robert E. Wick has earned an "Outstanding" performance rating.

During the past year, when the increasing responsibilities of the Assistant Director in charge of this Division required him to be away from his office, Inspector Wick distinguished himself as a substitute by his resourcefulness, astute judgment based on extensive knowledge of Bureau operations, diligence in handling a large volume of work in minimum time, mental and physical stamina under extreme pressure, and talent for being decisive in emergencies. His congenial personality, leadership, and enthusiastic attitude are most valuable assets in the liaison assignments which are primary duties in the Division Front Office.

In discharging his principal duty regarding dissemination of pertinent information to the public, Inspector Wick maintains continuous contact with representatives of news media and has at all times used his skill and finesse in adherence to FBI policy and in promotion of the best interests of the Bureau. Displaying alacrity, accuracy and ingenuity, he has established a reputation for expertise in handling press releases.

In addition to individual competency under all circumstances, Inspector Wick is invaluable as a source of information and stellar example in guiding and training subordinates. Selfless dedication to the Bureau, unstinting loyalty to his superiors, and constant readiness to be of assistance to his associates are brilliant characteristics of this outstanding career employee.

Memorandum to Mr. Tolson
Re: Inspection - Crime Records Division

DETAILS

PHYSICAL CONDITION AND MAINTENANCE VERY GOOD

Division space in Justice Building well arranged, private, secure, neatly maintained and adequate. Expansion of library space provided for in proposed new building - space currently adequate due to continuing program of purging obsolete material. 5 rooms in Justice Building space still below recommended General Services Administration (GSA) light level (detected on last inspection); request previously instituted by Division pending - awaiting availability of GSA funds; Inspector instructed Division to follow correction request closely.

Uniform Crime Reporting (UCR) Section space in Old Post Office Building (OPO) in need of painting, plastering and improved lighting; employees currently have about 35 square feet of space per person, whereas GSA recommended minimum 100 square feet per person; space generally deemed inadequate and unattractive. UCR Section scheduled to occupy new space approximately 12/31/64 in OPO (arrangements completed) which will be adequate.

Tour exhibits well maintained, attractive and secure; numerous new exhibits since last inspection; expanded tour route planned when new building completed.

Minor housekeeping delinquencies ordered corrected. Inspector ordered 3 Agents secure up-to-date photographs for credentials to insure current likeness.

SPECIFIC DIVISION OPERATIONS EXCELLENT

Continued emphasis on fugitive publicity assisted in apprehension 22 Top Ten Fugitives since April, 1963; 5 apprehensions directly attributable to such publicity; fugitives selected for Top Ten on representative geographic basis and/or to highlight issues in best interests of Bureau; Inspector ordered continued emphasis utilizing all logical news media outlets.

Memorandum to Mr. Tolson
Re: Inspection - Crime Records Division

4 new training films pertaining to arrest procedures, interview techniques, burglary investigations and police record systems currently being made - release date about April, 1965.

Active program of research projects has resulted in number of publications and accomplishments; 126 articles over Director's by-line published since last inspection, as well as 138 statements (feature articles in "Harvard Business Review" and "Syracuse Law Review" included). Reprints distributed in volume, where feasible; 90 new reprints processed since last inspection. Child molester poster distribution now exceeds 30 million (used widely on television programs throughout country); fold-over poster "What Young People Should Know About Communism" given wide distribution during heavy spring and fall rushes of students on FBI tours; booklet "The FBI - Guardian of Civil Rights" deemed valuable and timely.

FBI Law Enforcement Bulletin (LEB) circulation increased by nearly 4000 since last inspection; now totals 50,500 for all-time high; 13 to 15,000 copies of Director's introductory comments reprinted and distributed each month. In July, 1963, LEB format improved by change to glossy paper and other innovations to give bulletin modern magazine makeupp; additional changes pending to further improve format; project underway to provide monthly feature on vital legal decisions. Changes in keeping with maintaining LEB status as foremost law enforcement journal. Each field office now responsible for submission 3 proposed articles annually, due by February 20 each year. Inspector recommends (Assistant Director concurs) in interest of increasing timeliness of articles^{and} enhancing more continuous flow of submissions, three deadline dates be established throughout year; number of submissions per field office would remain unchanged, however, field offices would forward articles on schedules established by dividing offices into convenient geographic groupings. Procedure should expedite review and handling of submissions at SOG.

Library operating effectively; widely used by Bureau employees and National Academy appointees. Inspector ordered close liaison between lending library phase and counterpart in Identification Division to insure maximum benefits to all employees.

Correspondence and Tours (C&T) Section daily average of outgoing mail during period this inspection (4/63 - 11/30/64) 259 (increased from 242 over period last inspection); average daily production of dictated mail increased from 10.6 to 12.2 per dictator; average number of items daily requiring dictated reply increased from 106 to 147.3 since last inspection. Accuracy rate (based upon 96,903 pieces of mail) 99.22% based upon 76 errors for past 19 months; percentage of censures received from correspondence errors lower than during period last inspection (43 in 19 months as compared with 39 in 10 months). Inspector urged every effort be extended to reduce errors to absolute minimum consistent with sustained production.

Memorandum to Mr. Tolson
Re: Inspection - Crime Records Division

New record established in 1963 for individuals conducted on Bureau tours (531, 388 visitors handled for increase of 40, 477 over 1962); projection for 1964 nearly 600, 000 - for new all-time high. New exhibits since last inspection deemed interesting and informative; Division has continuing program to up date exhibits; numerous favorable comments and communications attest high quality of tours. Numerous tours monitored during inspection - presentation excellent. Inspector instructed that in view of public relations value, close observation of tour leaders be continued to immediately detect and correct any weaknesses.

Uniform Crime Reporting (UCR) engaged primarily in publication of annual Uniform Crime Report bulletin and periodic supplementary releases on crime data. Major revisions in crime reporting approved in April, 1963 by Committee on UCR implemented by Section resulting in improvement of descriptions of criminal acts involved and in facility in detecting improper reporting. Number of contributions approximately same as during period last inspection (8500); Section engaged in project to increase submissions from small cities and county agencies.

Follow-up on known offenders (FUKO) program inaugurated in January, 1963, to make available for first time substantially detailed data on known offenders, including their criminal histories, recidivism rates, mobility factors and eventually precise data to permit logical analysis of success or failure of specific court action and/or correctional treatment. Approximately 110, 000 criminals processed to date and 130, 000 anticipated by January, 1965; UCR bulletin for 1964 will include analyses to date from program (first analysis in UCR bulletin for 1963). Preliminary data developed thus far documents Director's position of many years concerning wide abuse of leniency by chronic offenders. Data developed under program regarding narcotics offenders furnished Congressional (McClellan) Committee and highlighted in report of that committee as first time such information available. Inspector's suggestion that disposition of charges be obtained from agency submitting the fingerprint record to further enhance usefulness of program deemed by Division to have merit and implementation will be exploited.

UCR currently conducting original survey as pilot program with 22 police departments in Metropolitan Washington, D. C., area to establish mobility factors (percentage of total arrests compared with crimes committed within jurisdiction). Since last inspection, UCR Section prepared article "Crime's Cost to Industry"; published by National Association of Manufacturers. Auto Theft Survey (one of five major articles and five editorials prepared by Section and published in LEB since last inspection) was basis for General Motors Corporation changing ignition systems on all 1965 models Buicks and Chevrolets.

White House liaison assumed by Division in November, 1963; in excess 1600 special memoranda prepared for dissemination since that time. Inspector instructed

Memorandum to Mr. Tolson
Re: Inspection - Crime Records Division

that closest attention be afforded White House requests to preclude any incorrect, incomplete or improper summarization of information available in Bureau files.

Division effectively implementing Bureau's psychological warfare campaign against subversive elements via cautious use of reliable and highly placed news contacts; since last inspection 131 items utilized; Inspector urged continuation on a highly discreet and extremely selective basis.

ADMINISTRATIVE OPERATIONS VERY GOOD

Division consists of Front Office (to which Assistant Director and 3 other supervisory Agents assigned) and 3 Sections, namely, Crime Research Section, Correspondence and Tours Section and Uniform Crime Reporting Section. Supervisory and administrative assignments equitably shared.

Division stenographic and typing production at 3.40 pages per hour over Seat of Government (SOG) average of 2.88. (Division stenographic average 3.43 pages per hour and typing average 3.30 pages per hour as compared with SOG averages of 2.72 and 3.23, respectively.) Stenographic retypes at 5.7% and typists retypes at 2.3% below SOG averages of 8.34% and 5.18% for stenographers and typists respectively. Combined stenographic and typing production decreased slightly since last inspection (in C&T Section only) from 3.49 pages per hour, however, improvement noted in retypes of both stenographers and typists since last inspection averages of 8.45% and 2.94%. Inspector urged every effort be made to maintain production at highest level consistent with minimum errors.

Since 5/1/63, 49 suggestions submitted effecting monetary savings and/or employee time, of which 25 adopted and 1 still pending during inspection; Inspector urged continued emphasis on employee suggestions to insure initiative and constructive attitude at all times encouraged. Odd-hour shifts justified. Inspector instructed that upon occupancy of new space (about January, 1965) by UCR Section, necessary steps be taken to dispatch bulk mail to outside agencies directly from Old Post Office Building, rather than dispatching through Bureau mail room, to eliminate handling by Bureau Courier Service.

Division supervises Bureau speech program which should reach about 8000 in 1964 - new all time high; Division personnel handling substantial number of speeches of specialized nature or in metropolitan area, including radio and television appearances. Inspector ordered continued emphasis of radio and television appearances in supervision of field speech program to provide maximum audience exposure. Inspector also urged continued publicizing of National Academy feature articles and photographs to pertinent local and foreign news outlets.

Memorandum to Mr. Tolson
Re: Inspection - Crime Records Division

Inspector recommended (Assistant Director concurs) making copies of current illustrated summary Tour Guide available to all Divisions as ready reference to assist all Special Agent tour leaders to maintain knowledgeability of tour exhibits.

Minor errors in Number One Registers detected; none affecting fringe benefits; closer attention to accuracy ordered.

PERSONNEL MATERS VERY GOOD

As of 12/1/64, 37 Special Agents and 140 clerical personnel assigned to Crime Records Division (excluding 2 individuals on maternity leave). Agent and clerical complements adequate at this time - not excessive.

Voluntary overtime for 3-month period August - October, 1964, averaged 2'42"; deemed essential, productive and equitably shared; Inspector ordered reduction consistent with full discharge of responsibilities. No employees on probation; no Agents overweight; training programs effective. Since last inspection 28 incentive awards, 24 Outstanding performance ratings and 218 letters of commendation received by Division personnel. Morale appears very high.

CONTACTS EXCELLENT

Assistant Director maintains close and extremely effective personal liaison with President, leading figures in private industry and on Congressional Appropriations, Judicial, Post Office and Civil Service Committees and top-level national officials of American Legion; effective liaison maintained by Division with highly placed as well as working level representatives of news media; vital services and fine support rendered Director and Bureau as result of active, aggressive and extensive liaison program spearheaded by Assistant Director.

Bureau and Division speech programs show more public appearances in 1964 than 1963; emphasis being placed at all times on quality audiences, with particular stress on radio and television appearances to afford maximum exposure of Bureau's responsibilities and accomplishments. Assistant Director spearheads Bureau speech program as evidenced by 24 major speaking engagements in past year before top personnel of highly influential groups (1500 executives of National Association of Manufacturers in December, 1964; 500 prominent news media representatives at NBC affiliates convention in June, 1964; 350 banking leaders in April, 1964, and the like).

The Director and Mr. Tolson inquired why they were not advised concerning a telephone call received at 7:15 p.m., 10-23-64, from Al Lewis of the Washington Post concerning the fact that the Chicago Tribune will print a story on Saturday, 10-24-64, which says that the FBI confirms that [REDACTED] tried to have a man recommissioned in the Air Force even though such an individual was a pervert.

Mr. Wick, who took the call from Al Lewis, advised that the call was late on Friday night and that he had dictated the memorandum, along with other expedite matters, to be sent through on Monday morning, 10-26-64. It is noted that Mr. Wick prepared a memorandum yesterday in answer to a similar inquiry by the Director and a copy of this is attached. It is noted that it was regretted that the matter was not handled more expeditiously.

You are certainly to be commended for your performance in connection with the discovery of a cache of dynamite which had been deposited in Prince William County, Virginia, by Minutemen.

As a result of your personal efforts under difficult conditions this Minutemen unit was exposed to the public through news media and much credit has come to the Bureau. I want you to know of my appreciation.

SUBJECT: MINUTEMEN, INFORMATION CONCERNING
INTERNAL SECURITY
COMMENDATION MATTER

The purpose of this memorandum is to recommend letters of commendation for appropriate personnel of the Alexandria Resident Agency and Seat of Government for their efforts which resulted in the recovery of a cache of dynamite which had been hidden in Prince William County, Virginia, by a Minutemen organization of the Alexandria area.

b6

SAC, Richmond recommended commendations for SAs Marion and [redacted] of the Alexandria Resident Agency as they had developed one [redacted] as an informant concerning Minutemen activities and guided him to the point that he pinpointed the location of the dynamite hidden in the woods in a remote area in connection with the location where this group engaged in firearms and guerrilla warfare practices. Complete details were furnished to local authorities since no Federal law had been violated and the explosives were recovered by Prince William County and Virginia State Police, assisted by the 57th Ordnance Detachment of Ft. Belvoir on 6/10/65. Domestic Intelligence Division concurred in SAC's recommendations.

b6
b7C
b7D

Mr. DeLoach also recommended that Senior Resident Agent Hall of the Alexandria Resident Agency also be commended since he coordinated activities of local law enforcement officers on the day of the recovery of explosives. It is also felt that Inspector Wick of Mr. DeLoach's office should be commended since he arranged for a photographer and a reporter of the Evening Star newspaper to be on the scene when the explosives were recovered. Wick proceeded with these individuals and local officers under difficult conditions in a most remote area and through his efforts, unusually fine publicity was arranged resulting in embarrassment to the Minutemen and full credit was given to the Bureau in the press for developing the information which led to the exposure of the Minutemen.

SUBJECT: ROBERT E. WICK
#1 Man - Inspector
Crime Records Division
EOD 7-20-42; GS-17, \$24,548

The following is a brief summary of Mr. Wick's record for the Director's use. Effective 12-31-65, he was promoted to Assistant Director of Crime Records Division.

He entered on duty on 7-20-42, as a Special Agent and he has been assigned to the Seat of Government since 11-27-49. He is presently assigned to the Crime Records Division as #1 Man to the Assistant Director. He is in Grade GS-17, \$24,548 per annum, is 55 years of age, is married, and has 3 children. His services are rated OUTSTANDING.

On 7-20-62, the Director personally presented him with the Bureau's TWENTY-YEAR SERVICE AWARD KEY. Since then he has been CENSURED on two occasions, the last being on 10-26-62, for failing to promptly submit a memorandum setting forth the fact that an individual had contacted the New York Office prior to writing a newspaper article in connection with former employee [redacted]. He has been COMMENDED on 8 occasions, the last being on 6-17-65, for the performance in connection with the discovery of a cache of dynamite which had been deposited in Prince William County, Virginia, by Minutemen. He has received 4 INCENTIVE AWARDS, 3 of which have been for outstanding work performance, and merited outstanding performance ratings. b6

His file reflects the Director saw him on 9-23-59, when he called to express his appreciation for the designation of #1 Man of the Crime Records Division. The Director stated at that time that he made an excellent appearance, seemed to be intensely enthusiastic about his work and the Director rated him above average. The Director discussed with him the importance of his assignment and commended him for the manner in which he supervised and handled the release incident to the arrest of certain figures in the boxing world.

REC-150 67-333529-320
The Director also saw him on 10-30-61 when he and his 84-year-old father, Peter Wick, from South Dakota, was visiting the Bureau. An autographed photograph was taken at the time as a memento of the occasion. His father passed away in February, 1962, and the Director's condolences were expressed at that time.

His sons, [redacted] are former summer employees of the Bureau. Their services were satisfactory.

MEMORANDUM FOR MR. TOLSON
MR. DE LOACH

This morning I saw Assistant Director Robert E. Wick of the Crime Records Division. Mr. Wick called to express his appreciation for being designated Assistant Director.

I told Mr. Wick he had a real challenge before him and I wanted him to work into many of the tasks which Mr. DeLoach previously performed; that Mr. DeLoach would continue liaison with the White House and two or three key figures at the Capitol, but beyond that, I wanted Mr. Wick to take up the various contacts and supervise thoroughly the work of his Division.

I told Mr. Wick that I wanted special attention to be given to the delays which have been frequently occurring in handling incoming correspondence and incoming memoranda. I stated that there have been instances in which there has been a delay of a week or more and that this was entirely unsatisfactory and must be corrected at once.

I also told Mr. Wick that I wanted him to keep memoranda which come to me down to not exceed two pages as a general rule. I stated Mr. Daunt was the principal offender as his memoranda run three or four pages and I did not have the time to read such long memoranda.

I told Mr. Wick I wanted him to intensify the work concerning the computer operation. I stated I saw a memorandum this morning which indicated the computer would be delivered in June, 1966, but that the actual operation of the central file would not start until January, 1967. I told him I thought this was unsatisfactory and that we should do most of the spadework between now and the arrival of the computer so that we could start operation shortly after the arrival of the computer and not wait until January, 1967, to initiate the program.

INSPECTION - CRIME RECORDS DIVISION

INSPECTOR R. C. HALSTEAD

12/6 - 17/65

SYNOPSIS

Officials: At time of inspection, Cartha D. DeLoach was Assistant Director in Charge of the division since 1/23/59. Robert E. Wick was Number One Man and had so served since 9/11/59. Last inspection: 11/24/64 - 12/8/64.

Physical Condition and Maintenance - Very Good (Last Inspection - Very Good). Space in Justice and Old Post Office (OPO) Buildings well arranged, secure, adequate and fully utilized. Move by Uniform Crime Reporting Section in OPO has alleviated congested situation. New tour exhibits established, old ones refurbished and 2 additional exhibits in preparation. Need still exists (detected last inspection) for improved light level in Room 5625. Potential physical hazards and several minor housekeeping delinquencies detected. Instructions issued to immediately correct delinquencies. Old Xerox copy records and copies of supply requisition forms retained ordered destroyed.

Specific Division Operations - Excellent (Last Inspection - Excellent). Programs of division result in extremely favorable portrayal of Bureau's operations in all media. "Top Ten" Program highly effective. 7 of 19 "Top Ten" fugitives apprehended since last inspection attributable to fugitive publicity. Television program, "The FBI," widely accepted. Radio, television, magazines, trade journals and newspapers exhibited as outlets for fugitive publicity and informative data regarding Bureau. Imaginative research program produced data regarding 75 articles and 238 statements by Director since last inspection which were widely publicized in national publications. Research assistance to outside writers resulted in many favorable articles as well as 2 major books regarding Bureau. Format of Law Enforcement Bulletin further improved - circulation at all-time high - 53,500. Director's introductory remarks widely publicized. Four new police training films produced and distributed to field 4/65. Tremendous influx of expedite name checks for White House (6,000 since 1/1/65) handled without any additional personnel. Economies effected by careful selection of additional approved Bureau speakers to reduce travel costs in field. Production and accuracy of Correspondence and Tours Section improved since last inspection. Tours monitored - presentation excellent - exhibits highly effective. Statistical contributors to Uniform Crime Reports (UCR) increased to 8,700 (last inspection 8500). Establishment of automated National Crime Information Center aggressively pursued. Appropriate research underway, training being afforded key personnel. Instructed to make program

operational at earliest possible date. Follow-up on Known Offenders Program progressing satisfactorily. Estimate one year to complete processing backlog. Streamlining suggestions made regarding UCR operations.

Administrative Operations - Very Good (Last Inspection - Very Good). Supervisory and administrative assignments equitably shared. Steno and typing production above Seat of Government (SOG) average; percentage of retypes below average. Since 7/1/64, 54 suggestions submitted; 24 adopted and 1 still pending. Savings in excess of \$12,000 achieved in division by eliminating 3 GS-4 positions. Plan by division to transfer work from Agents to Review Analysts has merit, should be fully developed and put into effect if feasible. Minor errors detected in Time and Attendance records - none affecting fringe benefits - and 2 outdated forms in use by division ordered updated. Inspector suggested working hours of 2 correspondence units be changed from 9:00 AM - 5:30 PM to 8:00 AM - 4:30 PM to expedite flow of mail (approved). Inspector proposed occupational addresses of close contacts of Director be cross-indexed in Special Correspondents' List (this will eliminate delay such as recently occurred in connection with acknowledgment of calendar sent Director). Division has eliminated some publications from tour route and all publications made unavailable during peak rush periods, thereby reducing volume of printing being produced; very favorable. Field speeches, supervised in division, reached new all-time high in 1964 and on way to establishing new high in 1965.

Personnel Matters - Very Good (Last Inspection - Very Good). 38 Special Agents and 160 clerical personnel assigned (this is one over authorized Agent quota but approved by the Director temporarily for as long as it is necessary for Inspector E. C. Kemper to remain in Hollywood). Staff adequate but not excessive. Voluntary overtime productive, equitably shared and essential. No employees on probation; no Agents or male clerks overweight. Training programs effective. 36 incentive awards since last inspection. Morale very high.

Contacts - Excellent (Last Inspection - Excellent). Highly effective, top-quality contacts continue to be developed by division. Assistant to the Director DeLoach's close personal contact with the White House has strengthened trust and confidence in Director and Bureau. Unique contacts with Congress have been of continuing benefit to Bureau in legislative matters. Increased high-level contacts with news media have resulted in extremely effective press coverage. Very close liaison continues with National American Legion through personal participation by Assistant to the Director DeLoach in top-level Legion activities. Substantial increase noted in SAC contacts - program supervised by division. Assistant to the Director DeLoach continues to handle numerous speaking engagements before top-level groups. Close liaison contact with television representatives has contributed to success of television program "The FBI."

RECOMMENDATIONS:

1. Immediately prior to the inspection Cartha D. DeLoach was designated by the Director to be Assistant to the Director effective 12/31/65.

Memo for Mr. Tolson
Re: Inspection - Crime Records Division

Mr. DeLoach (not on probation) makes an exceptionally fine personal appearance, possesses an engaging personality and has an outstanding ability to handle public relations. He has been very effective in maintaining personal liaison with the White House for the Director. He has extensive valuable sources in Congress, the Executive Branch, private industry and news media. These sources have been used to great advantage to promote the best interests of the Bureau and the Director. Mr. DeLoach is a dedicated career employee who is intensely loyal to the Director. He is a skilled public speaker and makes an outstanding impression as a Bureau official. He has exceptional leadership qualities and is highly regarded by employees under his supervision. He is highly qualified to serve in his new assignment. If approved, attached letter will advise Mr. DeLoach of the inspection findings. A copy of this letter is being designated for Assistant Director Wick.

2. Immediately prior to the inspection, Mr. Wick, who had previously been Number One Man, was designated as Assistant Director in Charge of the Crime Records Division (GS-17 @ \$24,548 - not on probation) (Mr. Thomas E. Bishop - GS-15 @ \$19,415 - reported to the division on 1/3/68 as Number One Man). Mr. Wick makes a superior personal appearance. He has definite leadership qualities and is a highly skilled administrator. He has displayed exceptional talent in handling press relations. He is a dedicated career employee who is constantly alert to promote the best interests of the Bureau and the Director. He is highly qualified for his new assignment.

3. Recommendations regarding other personnel being handled separately.

Memo for Mr. Tolson
Re: Inspection - Crime Records Division

DETAILS

PHYSICAL CONDITION AND MAINTENANCE VERY GOOD

Division space in Justice and OPO Buildings well arranged, secure, adequate and fully utilized. Move by Uniform Crime Reporting (UCR) Section in January, 1965, from third to sixth floor, OPO, alleviated congestion. Programs being handled in UCR Section intimately connected with Voucher-Statistical Section of Administrative Division as data developed is stored in computer complex physically located in Identification Building. Current space limitations prevent more expeditious handling if the 2 sections were contiguous or under same roof. No change has occurred in space allotted in Justice Building except storage space obtained for reprint material in sub-basement. Move of this reprint material from 8th floor will be accomplished following installation of lights and wire enclosure in newly acquired storage area.

Eight new tour exhibits established, old ones refurbished since last inspection with 2 additional exhibits (extortion and bank robbery matters) in preparation. Installation of lighted exit signs and washable wall coverings and rearrangement of unit in laboratory are additional improvements made along tour route. One Agent secured new holster in accordance with Inspector's instructions.

Apparent need still exists (detected on last inspection) for improved light level in Room 5625, used by outside newsmen and where extensive proofreading is performed. Potential physical hazards detected consisting of damaged, worn and disintegrated floor tile, faulty light switches and loose telephone wire in OPO and broken bench leg and loose metal moulding in tour space, Justice Building. Old Xerox copy records and copies of supply requisition forms being retained OPO ordered destroyed. Several minor housekeeping delinquencies noted. Instructions issued to immediately correct delinquencies and to follow closely those matters which must be handled by General Services Administration, particularly those which constitute physical hazards, to insure remedial action is taken as promptly as possible.

SPECIFIC DIVISION OPERATIONS EXCELLENT

Dynamic programs in effect which result in extremely favorable portrayal of Bureau's operations in all forms of news media. "Top Ten" Program continues to be highly effective. 19 "Top Ten" fugitives apprehended since last inspection, 7 directly attributable to fugitive publicity. Replacements for "Top Ten" selected judiciously to insure continued national interest.

In 5/65 Assistant/Director ably represented the Director in history-making utilization of "Early Bird Satellite" method of international transmission of television signals as effective means of fugitive publicity in cooperation with

Memo for Mr. Tolson
Re: Inspection - Crime Records Division

[redacted] and [redacted] Resultant capture of badly wanted [redacted] b7D
fugitive by Bureau Agents created an inestimable amount of favorable publicity to
Bureau as well as effectively highlighting our leadership in police cooperation matters.

Radio television trade journals as well as magazines and newspapers
being fully exploited as fugitive publicity weapons. Assistant to the Director currently
participates in national weekly radio programs carried by American Broadcasting
Company and the National Alcoa Radio Series. He also represents Bureau in weekly
programs of an informative nature carried by local stations WINX and WOOK. Quality
radio scripts are created and distributed for use by field. In addition, items of
interest are made available to influential broadcasters who have been developed as
friends and supporters of the Bureau.

Weekly television show "The FBI" which entails exhaustive research
as well as full-time representation by division representative as technical director,
has been very well received. Interest this program has stimulated is revealed by
fact the show currently being carried in Japan.

In April, 1965, 4 new police training films were completed and
distributed to field. They concern arrest procedures, interview techniques, burglary
investigation and police record systems and many favorable comments were
received.

Research programs resulted in production of data for 75 articles
and 238 statements by Director which were widely distributed in such publications
as "Look," "Parade," "Christian Science Monitor," "Kansas Law Review" and
"U. S. News and World Report." Also provided research assistance for 2 major
books highly complimentary regarding Bureau by Andrew Tully and David Sentner
in addition to assisting numerous other prominent writers who were engaged in writing
concerning Bureau's operations.

Tremendous influx of White House expedite name checks (approximately
6000 received since 1/1/65), indicative of high degree of confidence placed in Bureau.
Division able to handle these name checks expeditiously without increasing number
of personnel. Exploring possibility of utilizing experienced clerical personnel for
position as Reviewer Analyst to relieve Agent supervisors of significant part of the
name check load. Instructed to fully develop this plan, and if feasible, place into
effect soon as possible.

Some 100 additional Bureau speakers in field carefully selected and
approved (primarily Senior Resident Agents) since last inspection. This resulted
in considerable economies by reducing travel cost in reaching key groups in outlying

Memo for Mr. Tolson
Re: Inspection - Crime Records Division

areas. Instructed to be highly selective in designating additional speakers to insure continued excellence of speech program.

Circulation of Law Enforcement Bulletin at all-time high - 53,500. Format further improved and Director's introductory remarks publicized extensively. The Investigator continues to retain its high quality and wide appeal to both Agent and clerical personnel. New booklets such as "99 Facts About the FBI" and "How Bonding Companies Can Help the FBI" prepared since last inspection and appear to be most effective.

Library operating efficiently and services widely utilized by Bureau personnel and National Academy. Suggestion made to revise filing procedures so that most commonly used reference books will be more readily available.

Average number of correspondence items handled by the Correspondence and Tours Section increased from 5100 per month at time of last inspection to 6557 currently. Accuracy rate increased from 99.22% last inspection to 99.93% this inspection. Instructed to make every effort to continue this excellent record and strive to reduce errors to absolute minimum.

588,252 individuals accommodated on FBI tours first 11 months of 1965, an all-time record. Several tours monitored, presentations excellent - exhibits highly effective. Instructed to constantly evaluate in order to insure continued excellence.

Statistical contributors to UCR program increased to approximately 8700 (last inspection 8500). Project continuing to increase contributors from all city and county agencies. Follow up on Known Offenders Program progressing satisfactorily. Project undertaken to process backlog of records. Estimate one year to complete. Establishment of National Crime Information Center (NCIC) aggressively pursued. Bids received for computer equipment to handle initial program. Systems and design studies underway. Appropriate research and training of key personnel in progress. Instructed to give close attention to make program operational at earliest date possible.

To streamline UCR operations Inspector recommended (1) utilizing double-pedestal rotor file desk in lieu of three 4-drawer filing cabinets for active statistical files, (2) eliminating the hand-stamping of instructions for punching by Statistical Section of approximately 7800 monthly return "A" forms and substituting one cover instruction for all such forms, and (3) exploring possibility of obtaining automatic stuffing and sealing machine to replace manual operations.

Memo for Mr. Tolson
Re: Inspection - Crime Records Division

ADMINISTRATIVE OPERATIONS - VERY GOOD

Division consists of Front Office (to which Assistant Director, Number One Man, and 2 other supervisory Agents assigned) and 3 Sections, namely Crime Research Section, Correspondence and Tours Section and Uniform Crime Reporting Section. Inspector, who is assigned to Front Office, is presently in California on special assignment. Supervisory and administrative assignments equitably shared.

Division stenographic and typing production at 3.32 pages per hour above Seat of Government average of 2.98 (Division stenographic average 3.26 pages per hour and typing average 5.46 pages per hour as compared with SOG averages of 2.85 and 3.25 respectively). Stenographic retypes at 2.97% and typists retypes at 2.85% below SOG averages of 5.63% and 5.75% for stenographers and typists respectively. Although combined stenographic-typist production during period of survey exceeded SOG average the Division average was less than at time of last inspection (3.32 vs. 3.43). Stenographers in Correspondence and Tours Section adversely affected over-all Division average as substantially below production level achieved at last inspection (2.8 vs. 3.38). Typists exceeded Division retype level at time of last inspection (2.85% vs. 2.3%). Inspector issued instructions to closely follow stenographic production in Correspondence and Tours Section and typists in Division so that higher level of performance may be attained.

During period 7/1/64 to 6/30/65, Division submitted 22 suggestions, 8 of which were adopted. From 7/1/65 to 12/1/65, 32 suggestions were submitted, 16 being adopted and 1 pending final action. Those adopted resulted in improvement in Division's over-all efficiency. The 7 existing odd-hour shifts are justified. Since last inspection 3 GS-4 positions in Correspondence and Tours Section eliminated resulting in annual savings of in excess of \$12,000. Consideration being given by Division to establishment of 2 GS-8 Review Analyst positions in order to transfer significant portions of work in handling White House name check requests from Agent personnel to qualified, competent clerical employees. Plan has merit; therefore, instructions issued to fully develop and if feasible put into effect as soon as possible.

Flow of work expedited and working conditions improved in Uniform Crime Reporting Section with addition of 8 rotor files since last inspection. Tour leaders are thoroughly trained in precautionary measures designed to prevent accidents to touring public and such accidents being held to minimum. Inspector recommended certain magazines in Bureau Library be purged and rearranged to make room for the volumes now being filed on the tops of racks. Crime Research Section instructed to destroy the unused cross-index for Special Mailing List. 2 outdated forms in use by Division ordered updated as soon as possible.

Memo for Mr. Tolson
Re: Inspection - Crime Records Division

A suggestion proposed (Assistant to the Director concurs) that 2 correspondence units in Correspondence and Tours Section change their schedule of working hours from 9:00 AM - 5:30 PM to 8:00 AM - 4:30 PM in order to even off flow of mail during the early morning hours which should result in greater efficiency and accuracy (approved). Suggestion proposed (Assistant to the Director concurs) that occupational addresses of close associates of the Director be cross-indexed in the Special Correspondents' List to expedite acknowledgment, insure proper acknowledgment and to have this information available to all divisions. Minor errors and omissions noted in Time and Attendance records detected - none affecting fringe benefits. Tour training class of 30 young men recently completed. Previous instructions re cutting back on reprint material being implemented. Some publications previously available to touring public eliminated where overlap or duplication existed and all publications unavailable during peak rush periods. This procedure should be continued as assists in reducing volume of printing.

Division continues to supervise Bureau speech program which reached 8,594 in field in calendar year 1964 - new all-time high. 8,198 field speeches have been handled during first 10 months of calendar year 1965.

PERSONNEL MATTERS VERY GOOD

As of 12/3/65, 38 Special Agents and 100 clerical personnel assigned to Division (SAC T. E. Bishop, Richmond, ordered in as Division #1 Man - to report 1/3/65). Agent and clerical staff adequate - not excessive (Director has approved that division operate one over authorized quota of 37 so long as Inspector E. C. Kemper remains on special assignment in Hollywood). Voluntary overtime for 3-month period August - October, 1965, averaged 2'30" which appears essential, equitably shared and productive. No employees on probation; no Agents or male clerical personnel overweight. Training programs effective. Since last inspection there were 36 incentive awards, including 18 outstanding ratings. Morale very high.

CONTACTS EXCELLENT

Highly effective, top-quality contacts continue to be developed by the division all of which are of far-reaching benefit to the Bureau. Assistant to the Director's close personal contact with the White House on practically a daily basis has greatly strengthened the trust and confidence in the Bureau's operations. The unique liaison with the White House, together with added top-level contacts developed in Congress, has effectively protected the Bureau's interests and increased the esteem in which the Bureau and the Director are held by the Executive and Legislative Branches of the Government. Through carefully developed contacts, recently enacted legislation providing penalties for the assassination of the President

Memo for Mr. Tolson

Re: Inspection - Crime Records Division

the FBI was specifically designated as having investigative responsibility. This is a most unique occurrence and only through extremely high-level legislative contacts of this Division could such have been accomplished. Contacts continue to be established by this Division with highly placed individuals in the news media on a nationwide basis and this has resulted in exceptionally effective press coverage, all of which continually increases the tremendous esteem in which the Bureau and Director are held by the public. Very close liaison continues with the National American Legion through the personal participation of the Assistant to the Director in top-level Legion activities. Stress continues on the field to insure that quality SAC contacts are maintained; an increase of thirty such contacts noted since the last inspection. In the confidential psychological warfare campaign against communism and other subversive elements, this Division has contributed extensively to the campaign by utilizing key press contacts and has been primarily responsible for its success. Assistant to the Director continues to handle many speeches before top-level groups. The success of the current television series "The FBI" is the result, to a great extent, of the close liaison contacts developed over a lengthy period of time by this Division with the various elements of the television medium.
